Houston, TX 77003 • 432-271-0862 • Aishaowoyemi136@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented and analytical aspiring Data Analyst with a strong academic background in Management Information Systems and hands-on experience in data visualization, database development, and financial analysis. Skilled in leveraging tools like SQL, Power BI, Tableau, and Excel to uncover insights, drive decisions, and optimize performance. Adept at simplifying complex datasets, creating intuitive dashboards, and delivering actionable insights. Passionate about translating data into value for business operations and strategy.

TECHNICAL SKILLS

- Data Analysis & Visualization: Excel, Power BI, Tableau
- Database & Programming: SQL Python , Microsoft Access
- Other Tools: Microsoft Office Suite, PivotTables, Regression Analysis
- Soft Skills: Strong communicator, problem-solver, highly organized, collaborative team player

PROJECT EXPERIENCE

■ Stock Market Risk Analysis Project

Texas Southern University | Sep. 2024 – Dec. 2024

- Designed and analyzed a diversified stock portfolio with both high- and low-risk assets.
- Used Excel for performance tracking, regression analysis, and visual insights.
- Built interactive dashboards using pivot charts and tables, with portfolio performance outperforming the market index.
- Regression results confirmed statistically significant risk-return trends and a near-market beta.

■ Student Record Database System

Database Development | Jan. 2024 – May. 2024

- Developed a relational database using Microsoft Access and SQL for 100+ student records.
- Streamlined data entry with validation rules, reducing manual input errors by 95%.
- Managed academic records including grades, enrollment, and attendance efficiently.

WORK EXPERIENCE

Social Media Intern

Corporate P.O.L.I.S.H – Texas Southern University | Jan. 2025 – May 2025

- Curated and scheduled content across platforms to promote professional development events.
- Leveraged analytics to increase engagement and improve content strategy.
- Collaborated with student leadership to highlight resources and career-building opportunities.

EDUCATION

Bachelor of Business Administration in Management Information Systems

Texas Southern University | Expected Graduation: 2025
