

Akanksha Rai

Java Developer

MA | (401) 217-9691 | akanksha.r@inboxs.com

SUMMARY

- 3+ years of experience involving project development, implementation, deployment, and maintenance using Java/J2EE technologies.
- Proficiency in working with SDLC (Software Development Life Cycle) methodologies like Agile and Waterfall methodologies.
- Good knowledge of Java, J2EE, Spring MVC Architecture, Spring Boot, JSF, and Hibernate.
- Well-Versed in Integrated Development Environment (IDE) of Java including, IntelliJ IDEA and NetBeans.
- Ability to use designing, develop, and deploy Session, Servlets, JSP, JSTL, JavaBeans, and JDBC.
- Knowledge of web page design skills using HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, and XML.
- Working Knowledge of working with various databases like MySQL, and PostgreSQL.
- Proficient in using Maven, and Gradle for building and deploying applications on the servers.

EXPERIENCE

Allstate, MA

Jan 2023 - Current

Java Developer

- Work on the development and testing of the infotainment module using Agile methodologies.
- Implementing the Project structure base on the Spring MVC pattern using Spring Boot.
- Use Servlets and JSPs in developing the web application on Apache Tomcat.
- Working on HTML, CSS, JavaScript, AJAX, jQuery, Bootstrap, JSON, and XML.
- Manipulate data using CRUD operations of MySQL database management system and handled database access and data transmission based on Restful web service.
- Using Git as source control management gives a huge speed advantage on centralized systems that have to communicate with a server.

Trion IT Solutions, India

Aug 2018 - Aug 2021

Java Developer

- Worked in multiple software development methodologies such as Waterfall.
- Integrated springs framework with Hibernate that is used for Database operations.
- Involved in the development of HTML pages, JSPs, and CSS for different User Interfaces.
- Used Ajax to retrieve data from the server synchronously in the background without interfering with the display and existing page in an interactive way.
- Worked With Java/J2EE technologies like Servlets, JSP, JSTL, JDBC, Web Services, MVC architecture, and Design Patterns.
- Involved in troubleshooting the IBM Web Sphere application server issues.
- Wrote several complex queries in PostgreSQL that were run in production databases to clean up data, migrate data, and fix issues with datasets.
- Developed Maven build file to build and deploy J2EE applications.

EDUCATION

Master in Computer Science | Fitchburg State University, Fitchburg, MA

Bachelor in Computer Engineering | Uka Tarsdia University, Bardoli, Gujarat

SKILLS

Methodology	SDLC, Agile, Waterfall
Languages:	Java, SQL
Frameworks:	Spring MVC, Spring Boot, JSF, Hibernate
IDEs:	NetBeans, IntelliJ IDEA
J2EE Technologies:	Servlets, JSP, JSTL, JavaBeans, JDBC
Web Technologies:	HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, XML
Application Server:	Apache Tomcat, Web Sphere
Databases:	MySQL, PostgreSQL
Build /Other tools:	UML, MS Visio, Maven, Gradle
Version Control Tools:	Git, GitHub
Operating Systems:	Windows, Linux
