Master of Public Health, Concentration: Epidemiology

May 2026

The George Washington University, Milken Institute School of Public Health, Washington, DC

Bachelor of Science in Public Health

May 2024

San Diego State University, San Diego, CA

Associates of Mathematics and Natural Science

May 2021

Grossmont College, San Diego, CA

EXPERIENCE

Assistant Advisor

May 2025 - Present

Blue Persimmon Group, Washington, DC

- Support pharmaceutical and nonprofit clients through health outcomes, policy, and biomedical research engagements
- Conduct statistical analysis and data synthesis (quantitative and qualitative) to inform client strategy and recommendations
- Perform structured literature reviews and evidence assessments to support consulting deliverables
- Analyze survey and secondary datasets using statistical methods to evaluate outcomes and trends
- Develop client-facing reports, briefs, and presentation materials used in strategic decision-making
- Maintain project tracking tools and support cross-functional consultant–client meetings

Lead Research Nutrition Assistant

Jul 2020 – Jul 2024

Prosciento, Inc., Chula Vista, CA

- Coordinated and managed Phase I–II clinical trials in diabetes, metabolism, and endocrinology in compliance with study protocols and SOPs
- Conducted data collection, entry, cleaning, and quality assurance, ensuring adherence to Good Clinical Practice (GCP) and IRB standards
- Developed and maintained study documentation, including source documents and data collection forms
- Entered and managed clinical research data using Oracle and IBM systems
- Collaborated with multidisciplinary teams to document and retain participant encounters in accordance with regulatory requirements

Data Entry Associate

Dec 2021 - Aug 2022

Prosciento, Inc., Chula Vista, CA

- Performed data verification, discrepancy resolution, and quality control for clinical trial datasets
- Ensured compliance with HIPAA, human subject protection regulations, and company protocols
- Assisted with audit preparation, corrective action plans, and study closeout activities
- Coordinated with clinical trial sponsors, physicians, dietitians, and research staff to resolve data issues efficiently

Undergraduate Research Fellow

Jun 2023 – Jan 2024

SDSU Research and Equity Scholarship Institute, San Diego, CA

- Supported National Science Foundation–funded research focused on STEM education and diversity initiatives
- Conducted data cleaning, extrapolation, and quality assurance using statistical software
- Assisted in the development of survey instruments and data collection tools
- Contributed to the dissemination of research findings through research symposia and presentations

Project Management Intern

Jan 2023 - May 2023

Health and Human Services Agency, San Diego, CA

- Supported planning and implementation of public health programs and initiatives

- Developed Excel-based tracking systems to monitor performance metrics and scorecards
- Assisted with data visualization, reports, and stakeholder presentations
