

Alex Avaadorj

| Phone: +1(510)4211446 | Email: Amka.avaa@gmail.com | California, USA

Education

Missouri State University

- Bachelor of Science
- Major: Computer Science GPA: 3.5/4.0
- Minor: Mathematics GPA: 3.6/4.0
- Courses: OOP in C++, Algorithms and Data Structures, Operating Systems, Data Base Concepts

Work Experience

Web Developer, Web Analyst | Bay limo LLC | April 2023 – September 2024

- Conduct manual testing of Web applications (websites).
- Designed, developed and maintained web-based applications.
- Developed front-end and back-end of web applications
- Provide data driven business intelligence through tracking and analysis of website performance and results of online marketing initiatives.
- Build and manage a marketing dashboard that portrays key performance indicators for campaigns and different marketing channels
- Manage delivery of monthly performance reporting to quantify the impact of marketing & business adjustments

Software Engineering Intern | Mobicom Corp | May 2021 – July 2021

- Designed a data-based program that analyzes user's growth in a streaming application
- Designed and implemented a user-friendly graphical user interface for a website using Angular.js and React.js
- Developed the user-friendly interface for VOO streaming app
- Visualized and analyzed users' data using python and R for a better business model, further resulting in 15% user growth

Software Engineering Intern | Realnet | June 2019 – August 2019

- Participated in researching and implementing data-based new products and services
- Developed and visualized a data model in Python based on analysis that led to 10% customer growth
- Participated in website's front-end development using Html, CSS, and Js

Projects

Handwritten Digit Recognizer: Python, TensorFlow

- Designed input table that gets users handwritten digit as an input.
- Analyzing the input using TensorFlow neural networking and dividing into partial data sets.

Covid Data Visualization

- Visualized covid-19 data using python libraries and data science algorithms.
- Analyzed data and predicted future results using KNN and Naïve Bayes algorithms.

- Improvised data sets using classification algorithms for quick data insights.

Hand Sign Gesture Detection: Python, TensorFlow, MediaPipe

- Collecting input data from the real-time recorded tape using MediaPipe and improvising it into numerical data.
- Training and testing the pre-recorded data using tensorflow deep learning modules.

Technical Skills

Programming languages: C++, Python, Html5, CSS3, JavaScript, SQL, PHP, R

Technologies: jQuery, React.js, Node.js, MySQL, NoSQL, Bash, Git Version Control, TensorFlow, PyTorch

Data Analysis & Tools: Pandas, NumPy, Scikit-learn, TensorFlow, MediaPipe, MySQL, PostgreSQL, Bash, Git, Tableau, Microsoft Power BI, Microsoft Excel
