Motivated software developer eager to learn and grow in a collaborative environment. Seeking a position to contribute to a forward-thinking company that values creativity and innovation. Passionate about building solutions that make a difference.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS

Frameworks and Libraries: Spring Boot, Vue.js

Databases: SQL, PostgreSQL, JDBC, Table Design, E/R Diagrams

Tools: Git, IntelliJ

Development Practices: Agile, Unit Testing (JUnit), Integration Testing, Web APIs, REST

TECHNICAL PROJECTS

- **Vending Machine** - Developed a command line Vending Machine application that uses File I/O which reads from a list of text files that populated the price, names, slot location, and type of item the buyer was looking for and continuously updated when interacted with
 - **Tenmo (Venmo Clone)** -Developed a clone of the popular app Venmo, with Java that allows the user to send, receive, request, approve, and view transfers.
 - **DOM's Bytes Pizzeria** – Developed an application for a pizzeria that allows customers to create custom pizzas or order from a list of specialty pizzas. It also includes features for employees, enabling them to add or remove toppings and pizzas from the order menu. Additionally, employees can create accounts or login to manage orders, ensuring smooth operation for both the front-end customer experience and back-end management tasks. This system enhances both customer satisfaction and internal efficiency.
-

PROFESSIONAL EXPERIENCE

Inventory Specialist

10/2020 – 01/2024
