---

### **PROFESSIONAL SUMMARY**

Data Analyst with over 4 years of experience interpreting and analyzing complex data to drive scientific decisions. Skilled in statistical analysis and data modeling, with expertise in tools such as **R, ArcGIS, SQL, Python, and Tableau**. Adept at collaborating cross-functionally to interpret data outputs and deliver actionable insights through **reports and visualizations**. Strong background in project coordination, process documentation, and maintaining data accuracy. Experienced in translating client needs into analytical insights to support strategic decision-making.

---

### **TECHNICAL SKILLS**

- **Data Analysis and Cleaning:** R, Excel, SQL, Python, ArcGIS
  - **Statistical Analysis & Modeling:** Descriptive statistics, regression, survival analysis, power/sample size calculations, A/B testing
  - **Data Visualization:** Tableau, ArcGIS, GraphPad, R (ggplot2, Shiny)
  - **Database Development & Management:** REDCap, ACASI, relational databases
  - **Project Tools:** Documentation, protocol development, grant/manuscript writing, cross-team collaboration
  - **Additional Skills:** Data cleaning, quality assurance, workflow standardization, stakeholder engagement
- 

### **PROFESSIONAL EXPERIENCE**

06/2022- Present– **Programmer/Analyst, Johns Hopkins University**

- Conduct client- and outcomes-focused data analysis using **R and Python**, applying descriptive stats and predictive modeling
  - Perform ETL processes to prepare and clean data from diverse sources (e.g., survey, Epic, census) to support outreach and evaluation initiatives
  - Design and deliver data visualizations and reports to “story tell” results to non-technical stakeholders
  - Document workflows, analysis steps, and quality control/assurance procedures
  - Collaborate with cross-functional teams to align on client needs and project goals
  - Draft study protocols, statistical plans, and contribute to grants and manuscripts
  - Train and mentor junior researchers and interns in data tools, client-focused reporting, and best practices
- 

### **EDUCATION**

Aug 2020- May 2022– **Johns Hopkins University**, Master of Science in Public Health

Aug 2015- May 2019– **University of North Carolina at Chapel Hill**, Bachelor of Art in Biology and Global Studies

---

### **CERTIFICATES / TRAINING**

Dec 2024– **Project Management Fundamentals with a Team Approach**, *Triad Leadership & Project Management Services, LLC*

Mar 2024– **Power Analysis and Sample Size Planning**, *Statistical Horizons*

May 2022– **Public Health Informatics**, *Johns Hopkins University, BSPH*

May 2022– **Risk Sciences and Public Policy**, *Johns Hopkins University, BSPH*

---

### **ADDITIONAL INFORMATION**

- **Language:** Korean (fluent), Japanese (conversational)
- **Data Analysis Output:** 7 manuscripts published; 3 abstracts; 2 poster presentations
