SUMMARY

Results-driven Data Analyst with 3+ years of experience in data modeling, ETL pipeline development, dashboard design, and statistical analysis. Proficient in Python, SQL, Tableau, Power BI, and AWS. Proven ability to automate reporting, improve data quality, and deliver actionable insights that support operational and strategic decision-making.

EXPERIENCE

Sports Car Club of America (SCCA)

DeKalb, IL

Data Analyst Intern

Jan 2025 – Dec 2025

- Collected, cleaned, and analyzed 200+ weekly datasets using Python and SQL, improving data accuracy by 95%.
- Designed 12+ Tableau and Power BI dashboards tracking \$1M+ annual sales and KPIs across 8 departments.
- Automated 20+ recurring reports and ETL workflows, reducing manual effort by 30% (saving 15 hours/week).
- Conducted data validation on 1,000+ monthly records, resolving 98% of inconsistencies.
- Forecasted and monitored 15+ KPIs, improving service quality by 20% and resource allocation by 35%.
- Built Airflow and SSRS pipelines processing 2TB+ of data daily with 99.9% reliability.
- Designed star and snowflake data models and optimized 30+ SQL queries, improving performance by 40–45%.
- Architected AWS solutions using S3, Redshift, and EMR, reducing infrastructure costs by 30%.

OJAS Innovative Technologies

India

Data Analyst

Jan 2022 – Dec 2023

- Built and maintained automated Tableau and Power BI dashboards, reducing manual reporting by 50%.
- Developed Python- and SQL-based ETL pipelines, cutting data processing time by over 60%.
- Performed A/B testing and deep-dive analysis to support marketing strategies, improving conversion rates by 20%.
- Collaborated with product, sales, and engineering teams to define KPIs and deliver actionable insights.

PROJECTS

Atlas Airlift – Warehouse Management Database

- Designed a relational data model and ERD for a multi-warehouse logistics system covering 15+ entities.
- Wrote 20+ complex SQL queries to analyze inventory levels, unpaid invoices, and revenue by product category.
- Supported fulfillment, shipment tracking, and supplier performance analysis using data-driven logic.

UK Rail Ticket Analytics Dashboard

- Analyzed UK rail ticket datasets to identify pricing, usage, and revenue trends.
- Cleaned and modeled raw data using Tableau calculated fields, grouping, and parameters.
- Built interactive dashboards with filters and drill-downs for KPI tracking and trend analysis.
- Identified key revenue drivers across railcards, ticket classes, and ticket types.

EDUCATION

Northern Illinois University

DeKalb, IL

Master of Operations Management and Information Systems

Jan 2024 – Dec 2025

K L University

Vaddeswaram, India

Bachelor of Technology in Computer Science Engineering

Jun 2018 – Jun 2022

SKILLS

- **Programming:** Python (Pandas, NumPy, Matplotlib, Scikit-learn), R
- **Databases:** SQL, MySQL, SQL Server, PostgreSQL, Redshift
- **Visualization:** Tableau, Power BI
- **Cloud:** AWS (S3, Redshift, EMR, Lambda)
- **ETL & Workflow:** Airflow, SSRS
- **Data Skills:** Data Cleaning, EDA, KPI Reporting, A/B Testing, Statistical Analysis
- **Other:** Excel (Pivot Tables, VLOOKUP), Jira, Trello
