Education

The University of Texas at Arlington

May 2024

- Master of Science in Computer Science:

GPA: 3.65/4.00

Gujarat Technological University, Gujarat, India

May 2021

- Bachelor of Engineering in Computer Science and Engineering:

GPA: 3.73/4.00

Technical Skills

- **Languages:** Python, C, C++, C#, Java, JavaScript, NodeJS, HTML, CSS, React, TypeScript, Ruby
- **Technologies:** NodeJS, jQuery, Flask, TensorFlow, Bootstrap, XML, JSON, Firebase, PostgreSQL, MongoDB, PHP, SQL, Oracle, AWS, Azure, Git, GitLab, Android JAVA, Linux, Figma
- **Framework:** React.js, Express.js, Angular.js, Vue.js, Django, ASP.NET, Laravel, Blazor, vite
- **Software:** Visual Studio, Postman, Git, Kubernetes, Cisco Packet Tracer, PowerBI, COMPOSER, Slack

Experience

SilverXis inc., Irving, Texas, USA

September 2024 – Current

Software Developer

- Conducted thorough reviews on application functionality across platforms made with Python, NodeJS, and JavaScript.
- Integrated external **APIs** and linked **MySQL** databases into the existing system to enable new features, reducing integration time by 15% and improving data retrieval by 20%.
- Launched responsive web pages using **React.js, TypeScript, HTML5, CSS3, and JavaScript/jQuery**, enhancing user satisfaction by 30% and engagement by 25%.
- Troubleshoot and debugged application issues, optimizing code for upgraded performance and reducing system downtime by 20%.
- Conducted **code reviews** to ensure adherence to best practices, improving code quality and reducing bugs by 15%.

Indian Institute of Hardware Technology, Navsari, Gujarat, India

October 2020 – July 2022

Software Developer

- Engineered real-time communication capabilities through **WebSocket** and advanced **Python libraries**, increasing user engagement by 50%.
- Designed and delivered responsive user interfaces utilizing **JavaScript, HTML, CSS, React** and **Bootstrap**, resulting in a significant 15% enhancement in user satisfaction metrics.
- Developed **Flask-based RESTful APIs** and integrated with **MySQL** for seamless data management and exchange between systems.
- Contributed to the adoption of agile methodologies, enhancing team productivity by 15% through iterative development cycles with **Node.js, Express, MongoDB and C#**.
- Built **APIs** and **SQL** queries for an interactive **CRM dashboard**, enhancing data visualization by 25%.

Projects

Car Rental Company | Python, MongoDB, React.js, AngularJS, Vue.js, Node.js, Express.js, HTML, CSS

- Executed a complete vehicle rental data set framework utilizing **Python** and **MySQL**, which manage client data, vehicle inventory and transaction.
- Built a responsive web application with **HTML, CSS**, and frameworks like **React.js** (or **AngularJS/Vue.js**), enhancing load times by 30%.
- Designed RESTful APIs using **Node.js** and **Express** for seamless communication between the front-end and back-end.

Badal Patel

📍 Arlington, Texas, 76013 | 📞 817-372-3446 | ✉ badalpatel13022@gmail.com | [LinkedIn](#) | [Github](#)

- Optimized **MySQL** for data storage, resulting in a 15% reduction in data-related errors, and deployed on **UTA Cloud** to improve performance, reducing page load times by 20% and supporting a 30% increase in concurrent users.

Real Time Communication Tools | C#, Blazor, TypeScript, AWS, PostgreSQL, WebSocket, Socket.io

- Established a responsive user interface using **Blazor** and **TypeScript**, enhancing usability across devices.
- Harnessed **AWS** tools, including EC2, S3, and Lambda, to establish a flexible and scalable cloud infrastructure for enhanced application reliability.
- Leveraged **PostgreSQL** databases and produced **RESTful APIs**, enabling streamlined data management processes that improved request handling times by 40%.
- Created a **Chatbot** feature with **WebSocket** and **Socket.io**, enabling real-time communication and achieving a 15% improvement in response times.

Text to Speech | React, JavaScript, HTML, CSS

- Leveraged **Vite** to optimize build speed and streamline development, improving load times and enhancing user experience.
- Integrated **React** components to handle real-time text input and playback controls, delivering a smooth and interactive user interface.
- Implemented flexible speed control using **JavaScript**, enabling users to select playback speeds to meet diverse accessibility requirements.

E-Commerce Platform | React.js, HTML, CSS, JavaScript, PHP, MySQL, AWS

- Created a **responsive, cross-device compatible web application** using **React.js**, **JavaScript**, **HTML**, **CSS**, and **PHP**, optimizing user experience across multiple platforms.
- Accomplished an application on **AWS** utilizing services like **EC2**, **S3**, and **Lambda** for scalable cloud infrastructure and optimized application performance.
- Enhanced data transfer reliability by integrating three third-party services with **SOAP APIs**, resulting in a 40% reduction in data transfer failures and improving system stability.

Customer Feedback Dashboard | .NET, React, PHP, SQL

- Developed a real-time feedback dashboard with **.NET (C#)** and **React**, featuring interactive data visualizations.
- Engineered a robust database management system using **PHP** and **SQL**, improving data retrieval processes by 40% and ensuring compliance with data integrity protocols, enhancing overall system reliability and performance.
