

BALACHANDAR SAI PINNINTI

(678) 517-3376 | balachandarsaip@gmail.com | [linkedin.com/in/balachandar-sai](https://www.linkedin.com/in/balachandar-sai) | Marietta, GA

EDUCATION

Kennesaw State University

Master of Science in Information Technology

Marietta, GA

Aug 2024 – Dec 2025

Sreenidhi Institute of Science and Technology

Bachelor of Technology in Electronics and Communication Engineering

Hyderabad, India

Aug 2019 – Jun 2023

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, JavaScript, HTML, CSS

Data Science & ML: TensorFlow, Keras, scikit-learn, Pandas, NumPy, Statsmodels, ETL, Data Wrangling

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Looker Studio, QuickSight

Cloud & Big Data: AWS (S3, Redshift, Lambda, Glue, Athena), Azure (Data Factory, Synapse), GCP (BigQuery)

Databases: MySQL, PostgreSQL, MongoDB, Oracle, MS SQL Server, Snowflake

Tools & Technologies: Git, Jupyter Notebook, API Integration, Alteryx, Talend, SPSS, SAS, Flask, Node.js

EXPERIENCE

Graduate Teaching & Research Assistant

Kennesaw State University, Dept. of Computer Science

Aug 2024 – Dec 2025

Marietta, GA

- Served as primary GRA for Database Systems, supporting 100+ students in SQL, ER modeling, normalization, and relational database design through labs, assignments, and office hours
- Graded and evaluated coursework across Ethical Hacking, Cybersecurity, Linux Systems, and IT Policy Law, ensuring academic integrity and providing detailed technical feedback
- Collaborated with faculty on assessment design, grading rubrics, and course improvement initiatives
- Demonstrated academic trust and technical leadership by managing end-to-end student evaluation processes

Data Science Intern

Dataminds Analytics

Jan 2024 – May 2024

Hyderabad, India

- Built predictive ML models using Python and TensorFlow, improving forecast accuracy by 18% through feature engineering and hyperparameter optimization
- Automated end-to-end data pipelines for data processing, reducing preparation time by 40% and enabling faster model iteration

Web Development Intern

BrainOvision Solutions Pvt. Ltd.

Nov 2021 – Dec 2021

Hyderabad, India

- Developed full-stack web applications using Flask and Node.js, integrating MySQL databases and RESTful APIs
- Optimized backend queries and database indexing, reducing page load times by 25%

PROJECTS

YouTube Video Analytics Pipeline | AWS S3, Glue, Lambda, Athena, QuickSight

- Engineered scalable cloud-native ETL pipeline processing 1M+ daily trending videos, automating data ingestion and transformation into centralized data lake with 99.9% uptime
- Designed interactive QuickSight dashboards providing real-time engagement insights across 50+ regions

Uber Data Analytics Platform | Python, BigQuery, Looker Studio

- Developed high-scale data pipeline processing 10M+ monthly trip records, streamlining ETL processes by 40%
- Created operational dashboards for fleet analytics, reducing decision-making time by 30%

Healthcare Claims Data Quality Framework | Python, SQL, Power BI

- Built anomaly detection algorithms achieving 99% data accuracy, implementing automated validation workflows for real-time monitoring of 500K+ daily healthcare claims

Facial Emotion Recognition System | CNN, Python, TensorFlow

- Implemented deep CNN architecture achieving 85% accuracy in real-time emotion classification across 7 emotional states

PUBLICATIONS

Garbage Classification using Deep Learning | IEEE Journal, May 2023

- Published peer-reviewed research on CNN-based automated waste detection system achieving 92% classification accuracy, demonstrating practical applications of computer vision in sustainability ([View Publication](#))
