APPLIED CLINICAL RESEARCH SKILL

Thorough understanding of ICH GCP, and FDA guidance | Expertise in SAE/AE reporting | Utilization of risk management strategies to mitigate potential setbacks and ensure successful project completion within the set timeline | Successful FDA, sponsor and internal audits | Demonstrated proficiency with EMR systems | Expert in EDC: RAVE, IBM Clinical, Novartis RDC, Clindex | Professional utilization of vendor systems: IWRS, ePRO, Clario, Oracle, Salesforce, Veeva Vault | Over 7 years of client-facing experience | Hosted over 40 monitoring visits and investigator/CRA meetings

PROFESSIONAL EXPERIENCE

ZOLL MEDICAL

Sep 2025 to Dec 2025

Contract Clinical Data Abstractor

- Independently enrolled 1000+ participants and counting using the Clindex, being the second highest enroller on the abstractor team
- Analyze clinical charts to assess eligibility and participant fitness for a clinical registry
- Track and coordinate enrollments with a team of abstractors and managers
- Assess clinical charts for participant cardiac diagnosis and symptoms to designate participant within the Clindex database

WEILL CORNELL MEDICINE

Mar 2025 to Sep 2025

Research Coordinator

- Performed measurements of vital signs, conduct EKGs and administer questionnaires for research participants
- Upheld both physical and electronic medical records across 7+ weight control clinical trials
- Processed, packaged and shipped research specimen including blood and urine samples
- Completed IRB submissions for new study awards, continuing reviews and study closeout

ICON CLINICAL RESEARCH

Sep 2022 to Dec 2024

Lead Study Start up associate I 2024

Oct 2023 to Dec

- Initiate and complete site start-up for 200+ sites across 5 clinical trials spanning 3 sponsors and 4 disease types
- Facilitate weekly meetings with 10+ staff members to ensure sites activate less than two months from site selection
- Expeditiously instructed new staff members for study specific activities to further increase study productivity
- Innovate new processes, spreadsheets and trackers that have sped up study initiation activities by 30%

In-House Clinical Research Associate

Sep 2022 to Oct 2023

- Maintained clinical trial master files for 25+ sites across three of Icon's most complicated and substantial clinical trials
- Ensured CTMS is up to date for sites by maintaining site contacts, ensuring query closure rate of 100%, guaranteeing queries stay open no longer than three days
- Received two "Inspire Awards" for expedient completion of data locks and creating quality relationships with clinical sites

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO

Apr 2021 to Aug 2022

Clinical Research Coordinator

- Independently managed 30+ patients across 9+ therapeutic clinical trials focused on improving outcomes for people living with Multiple Myeloma and Diffuse large B-cell lymphoma
- Lead 30+ study introduction and supply meetings, allocating resources for both personnel and study materials
- Carried out 50+ Electronic Medical Record review of internal and external reports to extract integral data for analysis
- Trained 5+ clinical research coordinators on vendor systems such as Veeva Vault, IWRS systems and EDC systems and streamlined training processes for future coordinators

EDUCATION AND PROFESSIONAL DEVELOPMENT

BACHELOR OF ARTS, GLOBAL DISEASE BIOLOGY, University of California, Davis **June 2020**

EXTRACURRICULAR ACHIEVEMENTS

Eagle Scout (2014) Boy Scouts of America
