

Daniel Bostrom

Richfield, MN 55423

612-323-0968 | bostr060@alumni.umn.edu

Professional Summary

Highly effective Software Engineer with 4+ years of experience in Frontend Development (Vue.js, React, TypeScript) for complex fleet management software. Proven success in architecting high-impact features, resulting in usage across 200+ major job sites. Seeking to utilize technical skills to improve and innovate large-scale complicated systems.

Experience

Seegrid	Jan. 2022 – Oct. 2025
----------------	------------------------------

Software Engineer II | Oct. 2024 – Oct. 2025

Remote

- Spearheaded frontend development for PLC configuration, allowing clients to easily integrate PLCs across 200+ major job sites
- Implemented a reactive table component, streamlining the configuration and visualization of lane groups for up to 100s of individual lanes

Software Engineer I | Feb. 2023 – Oct. 2024

- Architected a dashboard for displaying status and sending AMRs to charging stations, reducing fleet downtime by 10%
- Engineered configuration for a new location type enabling hitching/unhitching of carts weighing up to 10,000 lbs.

Temporary Software Engineer (Contractor via Genesis10) | Jan. 2022 – Feb. 2023

- Developed their Fleet Central software used by 500+ customers daily for fleet management of AMR workflows
- Established an interface polling real-time data of AMR status giving operators a user-friendly view of crucial data with updates every 5 seconds
- Built company branded components for reusability as part of a component library, reducing development time by an estimated 8 hours per feature

Genesis10

Oct. 2021 – Jan. 2022

Dev10 Software Developer Trainee

Remote

- Selected for highly competitive Dev10 training program focused on full-stack Java development

Education

University of Minnesota – Twin Cities

Graduation May, 2020

College of Science and Engineering

Bachelor of Science | Mechanical Engineering

Minneapolis, MN

Skills

- Frontend: Vue.js, React.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, HTML5, CSS3, SCSS, Figma
- Backend/Tools: Java, C++, Git, Gitea, Jira, GitLab, REST APIs
- Testing: Jest, Vitest, Cucumber, Integration Testing
