Education

Lehigh Carbon Community College

A.S. in Computer Game and Simulation Development - Programming Track

Schnecksville

Aug 2019 — Dec 2021

Experience

Software Engineer

darkblaze.dev

Feb 2025 — Present

Meriden, CT

- Engineered a robust coding interview platform supporting problem creation, rich text descriptions, multiple test cases (including hidden ones), real-time code execution & judging in Python/JavaScript/Java/C++/Go/C#, submission history, difficulty tags, and user progress tracking.

Software Developer

Era Solutions Llc

Feb 2023 — Feb 2025

Oklahoma City, OK

- Partnered with a 5-person front-end team to build and launch responsive Home, About, and Careers pages, resulting in a 40% increase in site traffic and 25% improvement in career page conversion rates within the first 6 months post-launch.
- Implemented and tested AI-powered resume builder feature, conducting comprehensive QA cycles that identified and resolved 50+ bugs, resulting in a 95% reduction in user-reported issues and improved resume generation accuracy by 30%.
- Partnered with a 4-person front-end team to build and deploy Home, About, and Certification pages with dynamic routing using React Router, reducing page load times by 35% and increasing user session duration by 50% in post-launch analytics.
- Leveraged Figma for collaborative UI/UX design iterations and implemented responsive styling with Sass, ensuring 100% mobile compatibility across devices.

Coding Mentor

thecoderschool

Oct 2022 — Feb 2023

Glastonbury, CT

- Designed customized lesson plans tailored to individual learning paces, resulting in 90%+ student retention rate across sessions and consistent positive feedback on improved problem-solving abilities and project completion.

Info Tech Support Specialist

411th Civil Affairs Battalion

Feb 2023 — Feb 2025

Danbury, CT

- Installed, configured, and maintained computer systems, servers, and local area networks (LAN) for 200+ users, ensuring 99% uptime and optimal performance across the computing and network environments.

Info Tech Support Specialist

338th Medical Brigade

Apr 2020 — Feb 2023

Horsham, PA

- Performed comprehensive network administration tasks, including installation, configuration, and ongoing maintenance of routers, switches, and other LAN equipment, reducing network downtime by 40% through proactive monitoring and troubleshooting.

Projects

Void - Forge | *Next.js 13, Socket.io, Tailwindcss, Prisma, MySQL*

- Social App with real-time chat, notifications, and user profiles.

ABC Farms | *Next.js, Tailwind.css, Typescript, Stripe, Zustand*

- Full-Stack Ecommerce Platform.

Web Scraper | *Python*

- Developed WebScraper CLI tool in Python utilizing BeautifulSoup and Requests to extract targeted data from e-commerce or news websites, exporting results to CSV/JSON formats — processed 1,000+ pages across 50+ sites.

Bookbot | *Python*

- Developed BookBot, a CLI tool in Python that analyzes text files of classic books, generating detailed reports including total word count, character frequency distribution, and formatted readability insights.

Certifications

CoITB Certified JavaScript Professional

CoITB

CoITB Certified React Developer
