PROFESSIONAL EXPERIENCE

APPRAISAL REFERRAL NETWORK

DATA ANALYST INTERN

January 2025- May 2025

Internship for a local website focused on building a community for real estate appraisers to connect, collaborate, and expand their business. I collaborated with the team to create visualizations and data sheets on real estate, appraisal, and website statistics information, and provided it to supervisors.

- Created and organized data sheets on appraisers across all 50 states in Excel to provide new information for supervisors.
- Analyzed data on real estate markets, membership information, and performance, and created visualizations from this data to provide to supervisors.
- Acquired and strengthened skillsets in Business Intelligence, Excel, and Tableau.

THE GLOBAL TECH EXPERIENCE

Excel & Tableau Trainee

January 2024 – May 2024

I took part in an internship program with my school to expand my knowledge on data analytics by working on real-world projects for Fortune 500 companies through Excel and Tableau.

- Conducted data analysis using Excel, including functions, pivot tables, and visualizations.
- Created visualizations, interactive dashboards, and reports using Tableau Software.
- Analyzed A/B test results and produced data-driven business recommendations.
- Aggregated unstructured data from multiple sources to streamline data analysis.
- Created data visualizations for a variety of industries and scenarios, leveraging best practices.
- Collaborated with a global team and practiced intercultural communication skills.

THE GLOBAL TECH EXPERIENCE

INTEL - SUSTAINABILITY PROJECT

JANUARY 2024 – MAY 2024

- Analyzed energy availability and consumption patterns to support the selection of the optimal location for a new data center.
- Created visualizations and an interactive Tableau Dashboard to communicate data findings to non-technical stakeholders effectively.

Sigma Phi Epsilon Fraternity

Chaplain

January 2024 – December 2024

I was elected by my peers to serve on the executive board of my fraternity of over 70 members, where I took a leadership role in handling different responsibilities regarding member accountability, upholding fraternity values, and overseeing chapter success. Acted as a liaison between national headquarters and chapter leadership on issues of ethics, personal development, and member support. Helped with the planning, coordination, and execution of a successful philanthropy event benefiting the American Foundation for Suicide Prevention, resulting in raising over \$5,000 for the organization.

- I was responsible for holding all members accountable to the principles of the fraternity, as well as the other standards of membership, and upholding principles like member safety, academic success, and member accountability.
- I was responsible for upholding the rules, bylaws, and standards of the fraternity. I led and managed the standards board, which reinforces and upholds chapter standards by communicating expectations and facilitating trial and appeals procedures.
