PROFESSIONAL EXPERIENCE

UNIVERSITY OF CHICAGO, CHICAGO IL • April 2020 – Present

Oracle Fusion PPM Implementation Lead

- System Implementation Lead
 - Provided guidance to process owners in transition from 40 year mainframe system to Oracle Cloud. Process areas include Sponsored Research, Clinical Studies, Internal Discretionary Awards, and Capital Projects
 - Drove a wide variety of decisions as it relates to business process definition, configuration, integrations with third-party systems, conversion and reporting.
 - Integrated efforts across workstreams to achieve project goals and support strategic planning for campus deployment
 - Conducted interviews with peer, R1 institutions to assess lessons learned as it relates to cloud systems and implementation partners
 - Participated in all testing phases as test lead and test participant.
 - Key player in data conversion strategy, data mapping, data validation and financial reconciliation.
- Production Configuration Analyst
 - Liason between system process owners, internal technical support team and managed services provided by Deloitte.
 - Provides production support for all PPM process areas and month-end close activities
 - Drives prioritization of Day 2 business critical issues, process improvements and system enhancements.
 - Maintains office hours for each process area to facilitate knowledge transfer and issue resolution.
 - Documented and maintain PPM workbook.

CHILDREN'S HEALTHCARE LOS ANGELES, LOS ANGELES, CA • June 2020 – September 2021**Project Integration Liaison**

- Provided day-to-day support to Sponsored Research to resolve PeopleSoft system issues, provide knowledge transfer to research operation staff, identify and implement PeopleSoft Grants system enhancements and process improvements. Assist with the financial reconciliation of grant expenses, budget, invoicing and revenue recognition.
- Introduce features and configuration to expand use of delivered functionality and increase utilization of system functionality. Advise and guide operations on practices that mature system use, embrace automation, improve visibility to performance metrics, and increase staff productivity
- Devised and deployed automation of divisional financial reporting solution resulting in a time savings of 80 hours research for support staff.

UNITED NATIONS DEVELOPMENT PROGRAM, NEW YORK, NY • September 2019 – April 2020**Client Advisor, Upgrade Transformation Project**

- Facilitating client in development of client project goals, mission and vision. Working with Office of Finance Resource Management and department managers to strategize upgrade approach.
- Provides direct support to Deputy Chief Finance Officer and staff in analysis of product enhancements between 9.0 and 9.2 image 32 in areas of Grants, Contracts and Project Costing.
- Collaborates with UNDP staff to identify process improvement roadmap with objective to eliminate customizations, strengthen data relationships and integrations, improve reporting and analysis, and create a technical landscape that easily adapts to new technology.
- Strategized and designed workplan to execute Blue Printing exercise with third-party consulting organization. Instituted data capture in critical documents to provide reference for decision making including RICEW, CEMLI and MoSCow.

UNIVERSITY OF WISCONSIN, Madison, WI • Jul 2017 – October 2018**Upgrade Lead – Sierra Cedar, Implementation Partner**

- Led upgrade team through all phases of upgrade lifecycle for all 5 Grants modules. Monitored activities and managed milestone. Achieved high user acceptance and readiness scores during project exit interviews.
- Managed concurrent tasks and work streams; fit/gap, assessment of existing customizations, and proposed high impact business change. Project Team challenged existing customizations, presented delivered options that would decrease the total cost of system ownership.
- Managed team to deliver roll-out of Workcenter functionality for Grants suite and dashboard reports. Collaborated with development team to retrofit existing data warehouse solution to ensure consistent results regardless of reporting tool.
- Managed project team and coordinated activities during test cycles and analysis of PUM 24 through 27. Monitored development, issue resolution and testing progress with JIRA.

CHILDRENS NATIONAL MEDICAL CENTER, Washington, DC • Sept 2016 – Jun 2017**Functional Manager – Cerner, *Implementation Partner***

- Managed upgrade assessment in preparation for PeopleSoft 9.2 upgrade. Conducted facilitated discussions with stakeholders to develop upgrade strategy and plan. Established project objectives through analysis of project proposal documents and validating customer requirements.
- Lead project team through analysis of current business processes, system analysis and process design. Tracked and reviewed team deliverables, to ensure high quality standards and usability.
- Coordinated task related to financial reconciliation prerequisite for rolling-out dashboards and work centers. Provided client detailed analysis and recommendations to resolve issues.
- Directed team through multi-faceted financial reconciliation of grants/contracts-related transactions; analyzed and identified data streams; quantified variances and exposed gaps in business process.
- strategy; detailed cost/benefit analysis and service model to support re-designed system.

NEW YORK UNIVERSITY SCHOOL OF MEDICINE, New York City • July 2015 – June 2016**Research Operations Process Lead**

Managed all phases of upgrade project. Guided identification in improvement portfolio. Managed team to perform cross-functional analysis, solicit user acceptance and socialize change.

- Drove process improvement efforts to address operational inefficiencies and to extend automation through delivered application.
- Managed product development of proposal system and integration with Grants. Employed Agile development methodology to manage product requirements, scope and release prioritization.
- Provided advisory services to the Corporate Finance related to managing accounting periods in subsystems and impacts to F&A process and sponsor billing.

UNIVERSITY OF NORTH CAROLINA, North Carolina • January 2014 - July 2015**Grants/Contacts Implementation Manager - Accenture, *Implementation Partner***

- Managed Implementation, Deployment and Production Support activities for Grants modules. Project Team included consultants and university staff members.
- Lead design of conversion methodology for sponsored projects included inception-to-date expenses, billing, revenue and funding history. Worked closely with General Ledger team to ensure reconciliation between GL and Projects modules.
- Lead configuration design to support financial analysis and efficient business processing.
- Collaborated with Deputy Director of Office of Sponsor Research to develop overall project plan, set priorities and define requirements with key user groups.
- Facilitated General Finance transition from cash to accrual-based accounting for revenue recognition enabling the liquidation of account balances that reflected cash-based method.

- Atlanta, GA • 404-455-0351 • kimacollins0125@gmail.com

9.1 Grants/Contracts PeopleSoft Financials Implementation Lead

- Provided the client go-live readiness assessment of the Grants modules and Commitment Control. Areas of assessment include configuration, master data conversion and financial reconciliation.
- Lead the QA review and testing of high risk, cash flow impacting processes including Letter of Credit draw, LOC, and billing for non-federal grants.
- Lead the redesign of the commitment control ledger conversion which improved quality of the conversion results and provided the appropriate translation of legacy detail into PeopleSoft
