Manhattan, New York | (917)-435-5574 | anna.chapko2004@gmail.com | www.linkedin.com/in/anna-chapko

SUMMARY

Motivated Computer Science student with hands-on experience in software development, AI consulting, and cloud-based solutions. Proficient in Python, C++, and AWS, with a strong foundation in data processing, delivering scalable projects, optimizing workflows, and collaborating effectively in cross-functional teams. Eager to apply technical and analytical skills towards software engineering, artificial intelligence, and cybersecurity initiatives.

EDUCATION

CUNY Hunter College - Manhattan, New York
Bachelor's Degree in Computer Science (B.A.)

Expected Graduation: May 2026

WORK EXPERIENCE

Evergreen Investment

June 2024 - August 2024

Full Stack Developer Intern

- Developed and maintained a Wordpress-based web platform integrating React.js and AWS, improving user engagement and property listings visibility.
- Built automated workflows to connect internal databases and external platforms, increasing service booking rates for brokerage and property management.
- Collaborated with stakeholders weekly to define scope of the project, address issues, define tasks, and outline next steps, ensuring alignment with project goals and timelines, resulting in streamlined project execution.

Scale AI

January 2024 - June 2024

Gen AI / ML Consultant Intern

- Validated 30+ weekly Gen AI / LLM project tasks using Python and C++ to ensure accuracy in data labeling and curation processes, contributing to the delivery of high-quality AI training data and models.
- Conducted quality control (QC) and debugging to ensure data integrity and alignment with project objectives.
- Designed data transformation pipelines to convert raw to convert raw datasets into structured formats, improving AI model training, improving data usability and model performance.

Match Point Tennis & Fitness Club

September 2020 - December 2020

Front Desk Associate

- Utilized Club Automation software to manage 200+ client accounts, track cash/card payments, oversee membership billing, and improve customer retention, reducing discrepancies and improving record-keeping in financial operations.
 - Employed CRM tools, including payment trackers, member check-ins, and client profiles, to monitor and streamline member management, ensuring a seamless and organized experience for clients.
 - Addressed 120+ client inquiries on membership rates and upgrades monthly while providing exceptional customer service, greeting clients warmly, and resolving issues promptly to enhance client satisfaction and retention.
-

PROJECTS

Health Tracker App Project, iOS Development Course, CUNY Hunter College

August 2024 - December 2024

- Developed an iOS health tracking app using Swift/SwiftUI and REST APIs in order to collect calorie intake data, resulting in the population of daily nutrition metrics within the built-in calendar.
- Implemented code to collect data from the app's website, ensuring accurate and real-time updates to meal logs for breakfast, snacks, and drinks, enhancing user engagement and experience.
- Implemented a structured logging system to track and categorize food items, enabling users to monitor their daily calorie totals and nutritional breakdowns.

Spades-Card-Game, Software Design and Analysis 2 Course, CUNY Hunter College

May 2023 - July 2023

- Developed a Spades card game simulation in C++, implementing core mechanics (dealing, bidding, trick-taking, and scoring).
- Utilized object-oriented programming (OOP) design principles to create modular and reusable code, ensuring scalability and efficiency of the game logic.

- Conducted thorough testing and debugging to ensure accurate scoring and gameplay, including handling edge cases like sandbagging penalties and team score calculations.

EXTRACURRICULARS

Computer Science Club (August 2024 - Present) | **Women in Computer Science Club** (March 2025 - Present) | **Rewriting the Code Program** (January 2025 - Present)

CERTIFICATIONS

Programming for Everybody (Getting Started with Python) - April 2020 | C for Everyone: Programming Fundamentals - December 2023 | Introduction to HTML5 - July 2024 | Cybersecurity 101 codepath - August 2025

SKILLS

- **AI Platforms:** Gen AI / LLM
- **Programming Languages:** Python, C++, HTML, CSS,
- **Technical Software:** XCode, Visual Studio Code, Atom, Git, macOS, Linux, AWS, SwiftUI, Rest API, Club Automation, Epic, Electronic Health Record (EHR), Cerner, Medisoft
- **Website Design:** Figma, React.js, Canva, Wordpress, Sketch
- **Creative Editing Software:** Adobe Creative Suite (Illustrator, Photoshop, Premiere Pro)
- **Languages:** Fluent in English and Russian
