EDUCATION

Arizona State University, Tempe, AZ Master of Science in Engineering, Industrial Engineering M.S.	Current
---	---------

Arizona State University, Tempe, AZ Certificate, Lean Six Sigma Black Belt	Current
--	---------

Arizona State University, Phoenix, AZ Master of Global Management M.G.M., Global Business	May 2024
---	----------

Arizona State University, Tempe, AZ Bachelor of Science in Engineering, Industrial Engineering B.S.E., Honors Degree	Dec. 2022
--	-----------

PROFESSIONAL EXPERIENCE

Tutor • 5 th – 12 th grade Math and Spanish tutor.	Scottsdale Ed. Center, Scottsdale, AZ	Sept. 2024 - Current
--	---------------------------------------	----------------------

Graduate Teaching Associate • Undergraduate teaching associate for IEE 380: Probability & Statistics for Engineering	Arizona State University, Tempe, AZ	Aug. 2024 - Current
--	-------------------------------------	---------------------

Process & Systems Engineer • Developed, managed, and troubleshooted dashboard and reports in Power Bi. Automated reports and dashboards using Power Apps and Power Automate. • Key member for implementing a new ERP system; responsible for defining system requirements, ensuring accurate data migration for BOM, routing and work centers, validating MRP calculations, and developing new, standard operating procedures. • Created several Windows applications used for plastics manufacturing and quality assurance using Python. • Used 5S and other lean methodologies to improve manufacturing processes and quality outcomes in job processing. • Designed new equipment and manufacturing stations to promote ergonomic functionality and improve process efficiency.	PING, Phoenix, AZ	Jan. 2023 - June 2024
--	-------------------	-----------------------

Manufacturing Engineering Co-Op • Developed simulation models used to predict and assess different manufacturing scenarios using Arena Simulation. • Used Power Bi to create several different manufacturing and operations reports.	PING, Phoenix, AZ	Jan. 2021 – Jan. 2023
---	-------------------	-----------------------

PROJECTS

Graduate Practicum • Developed a market entrance strategy into Latin America. Worked with distributors in Mexico, Brazil, and Chile to improve delivery logistics and pricing options for the firm's product portfolio.	TOCOBO, Seoul, South Korea	Oct. 2023 – Dec. 2023
---	----------------------------	-----------------------

Undergraduate Capstone Project • Automated a closed circuit-manufacturing system to optimize inventory management, CNC milling, and production flow through a conveyor system. • Developed and troubleshooted software for each system component (i.e., PLC, robotic arm, conveyor, etc.).	Arizona State University, Tempe, AZ	Aug. 2021 – May 2022
---	-------------------------------------	----------------------

TECHNICAL SKILLS

- **Programming:** SQL, VBA, Python, Java, DAX, MATLAB, Julia
- **Software:** Arena Simulation, Excel, Power Bi, Power Apps, Power Automate, Tableau, Creo Parametric

ADDITIONAL INFORMATION

- **Languages:** English (Native), Portuguese (Native), Spanish (Highly Proficient)
