

Varsha Addagulla

Denton, TX | (945) 273-2877 | varsha.addagulla@gmail.com | [linkedin.com/in/varshaaddagulla](https://www.linkedin.com/in/varshaaddagulla) | github.com/Varsha1-addagulla

TECHNICAL SKILLS

Languages: SQL (PostgreSQL, MySQL, T-SQL), Python (Pandas, Scikit-learn, NumPy, LLM APIs, FastAPI, Flask), R (statistical analysis, econometrics)

BI & Data: Power BI (DAX) — Microsoft Certified, **Snowflake** — SnowPro Core Certified, Tableau (familiar), Looker Studio, GA4, Excel (Advanced — pivot tables, Power Query, modeling)

Cloud & Infra: GCP (Cloud Run, Cloud Build, Artifact Registry, Secret Manager), REST APIs, Git, Docker, dbt

AI & ML: LLM APIs (LLaMA 3.3-70b, Gemini, Claude), multi-agent systems, RAG concepts, Scikit-learn (Random Forest, Regression — 87% R^2), NLP, prompt engineering

Business Analysis: Requirements Gathering, User Stories, UAT, Process Mapping, Functional Specifications, Agile/Scrum, Jira, Confluence, SAP

SUMMARY

Data and business analyst with M.S. Business Analytics, B.B.A. Finance. Builds end-to-end data pipelines and BI dashboards, deploys AI-powered analytical systems, gathers and translates business requirements into technical solutions, and delivers data-driven insights across finance, operations, and product domains. **Microsoft Certified Power BI Data Analyst. Snowflake SnowPro Core Certified.** Open to onsite, hybrid, and remote roles.

EXPERIENCE

Merit Street Media

Fort Worth, TX

Data Analyst and Market Research Intern

May 2025 – Aug 2025

- Built end-to-end data pipelines in Python and SQL extracted, cleaned, and transformed Nielsen and billing datasets, loaded into Snowflake, and surfaced insights via Power BI DAX dashboards used daily by leadership.
- Identified a systematic data discrepancy through SQL root cause analysis rebuilt the ETL logic, validated outputs, and improved reporting accuracy from 85% to 98%.
- Applied LLM-based automation to eliminate a 3-day manual reporting cycle designed the workflow, built the Python scripts, and deployed to production without supervision.

BYJU'S

India

Market Research & Business Analyst

Jan 2022 – Jun 2023

- Gathered requirements through stakeholder workshops and interviews wrote user stories and functional specifications in Agile sprints, supported UAT, and tracked defects through Freshdesk to closure.
- Built Python models (regression, segmentation) on large financial and subscription datasets identified churn signals and LTV trends that informed product and commercial decisions.
- Developed Power BI dashboards and Excel financial models supporting C-suite planning improved data consistency across systems and delivered 15% improvement in analytical outcomes.

Coursenator

Remote

Market Research & Data Analyst

Jan 2021 – Jan 2022

- Collected and analyzed operational and financial data across 15+ concurrent programs using SQL and Python delivered insights supporting business decisions across Sales, Marketing, and Operations.
- Documented business processes, requirements, and data standards maintained SOPs and ensured consistent, reproducible reporting outputs across the organization.
- Implemented Python automation across manual data workflows reduced recurring prep time and improved output accuracy without increasing team headcount.

PROJECTS

LoanGuard AI | *Python, LLM APIs (LLaMA 3.3-70b), SQL, FastAPI, PostgreSQL, GCP (Cloud Run, Cloud Build)*

2025

- Architected and deployed a 7-agent AI credit decisioning system built multi-agent orchestration, REST API backend, PostgreSQL audit trails, and CI/CD pipeline on GCP; reduced decisioning from hours to 60 seconds.

SupplierIQ | *Python, FastAPI, React, TypeScript, SQL, LLM APIs, Railway, Vercel*

2025

- Built full-stack AI supplier intelligence platform Python/FastAPI backend, React/TypeScript frontend, LLM-powered risk scoring engine, deployed to production on Railway and Vercel.

StockPulse AI | *Python (Scikit-learn, NumPy, NLP), SQL, Render — 87% R^2*

2025

- Built predictive analytics platform using Random Forest and NLP achieved 87% R^2 on financial market signal prediction, deployed to Render with automated data refresh.

Wisdom Index Dashboard | *Python, Power BI (DAX), SQL, Snowflake, dbt*

2024

- Built production BI solution Python ETL, Snowflake data warehouse, Power BI DAX semantic layer, automated refresh; maintained data quality and governance documentation throughout.

EDUCATION

University of North Texas

Denton, TX

M.S. in Business Analytics — Econometrics, Statistics, ML, R Programming, Financial Modeling

Dec 2025

IIMC

India

B.B.A. in Finance — Financial Analysis, Economics, Consumer Behavior, Business Administration

2023

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate | **Snowflake SnowPro Core Certified**
BCG: Generative AI in Business Strategy | Goldman Sachs: Controllers Virtual Experience (Forage) | Nielsen Digital Ad
