

Douglas "Alex" Norment

Pflugerville, Texas, United States

(512)293-5436 | neverending.dn@gmail.com | in/xavier-norment-680787102

SUMMARY

Software Engineer with a Bachelor of Science in Computer Science and Programming at DeVry University with a focus on full-stack development and software engineering principles. Proficient in a diverse array of programming languages including SQL, Java, C++, and Python.

EXPERIENCE

Wipro

Jun 2025 - Present

Visual Studio Code Support Engineer

Austin, TX

- Delivered responsive technical support for hardware, software, and connectivity issues; minimizing downtime and improving overall network reliability.
- Tested and documented bug reports based on ticket requirements, contributing to a streamlined troubleshooting process and consistent issue resolution.
- Created and maintained a knowledge base of solutions and best practices, enabling faster support and improving team efficiency.
- Led end-user training and feedback analysis, driving adoption of new technologies and refining support processes to enhance user experience.

Wipro

Aug 2022 - Jun 2025

Product Reliability Engineer

Austin, TX

- Led end-to-end testing and debugging efforts, implementing performance monitoring systems that reduced downtime by 45% and strengthened product reliability.
- Partnered with cross-functional teams to align testing with business goals, resolve bugs efficiently, and adapt QA strategies to evolving product features-enhancing user satisfaction and consistency.
- Produced comprehensive documentation and embraced continuous learning, boosting team throughput by 60% and maintaining a competitive edge in a rapidly shifting tech environment.
- Applied QA engineering principles to manual testing and documentation, streamlining issue tracking and supporting consistent releases

Amazon

Sep 2019 - Aug 2022

Logistics Scheduler

Austin, TX

- Automated operational workflows using Python, VBA, and C#, reducing user failure rates by 60% and improving system reliability across shift based processes.
- Designed and maintained logistics and forecasting software for labor scheduling, routing, and real-time tracking and enhancing supply chain accuracy, decision-making speed, and overall operational efficiency.
- Integrated weekly tech updates and data driven insights into internal tools, addressing business goals and improving security, while aligning software enhancements with user behavior.

EDUCATION

DeVry University

2024

Bachelor of Science, Computer Science And Programming

- **GPA:** 4.0 GPA

DeVry University

2023

Associate of Applied Science, Information Technology and Networking

- **GPA:** 4.0 GPA

DeVry University

2022

University Certificate, Programming

- **GPA:** 4.0 GPA

SKILLS

- Generative AI, Agentic AI, SQL, Java, JavaScript, Playwright, C++, Python, Visual Studio, Test Creation, Quick Learner, Risk Analysis, Tableau, Test Maintenance, Chrome DevTools, Automation Testing, Node.js, QA Testing, Root Cause Analysis, Data Analysis, Technical Writing, Problem Solving and Debugging
