EDUCATION

DUKE UNIVERSITY, Fuqua School of Business

Master of Science in Quantitative Management: Business Analytics, Finance Track

Data Science Coursework: Modern Analytics, Data Science for Business, Decision Analytics & Modeling, Data Visualization

Domain Coursework: Derivatives, Intermediate Finance, Fixed Income Securities, Financial Risk Management

Durham, NC

Expected May 2025

BOSTON UNIVERSITY, Questrom School of Business

Bachelor of Science in Business Administration (Finance & Business Analytics Dual Concentration)

Clubs and Activities: Dean's List, Finance Club Member

Boston, MA

Jan 2020 — May 2023

CFA INSTITUTE

CFA® Program Level II Participant (Completed Level I January 2025)

Expected Nov 2025

PROFESSIONAL EXPERIENCE

Ark Financial

Vancouver, Canada

Capital Markets Intern

Jun 2024 — Dec 2024

- Assisted in the acquisition and restructuring of shell companies, preparing them for reverse mergers with private firms seeking public listings
- Conducted financial analysis and due diligence on Capital Pool Company (CPC) transactions, evaluating acquisition targets and optimizing deal structures
- Developed investment reports and analytics, supporting shareholder decision-making and streamlining the CPC process
- Led outreach to potential investors, conducting ~20 discovery calls and preparing investment reports to generate interest and secure capital for CPC transactions on the TSX Venture Exchange

Mazars

Xi'an, China

Audit Intern

Aug 2023 — Feb 2024

- Conducted audit procedures on various financial statement categories and audit assertions, performing substantive testing for assigned clients
- Utilized Excel (including VLOOKUP), SQL, and data analytics tools to manage large datasets, analyze YOY trends, and identify discrepancies in revenue recognition practices to enhance compliance with accounting standards
- Assisted in financial risk analysis by benchmarking client financials against industry standards to evaluate business performance

Versailles Group

Boston, MA

Mergers & Acquisitions Intern

Feb 2023 — Aug 2023

- Developed valuation models (DCF, Comps) to assess acquisition targets, portfolio exposure, and transaction impact, supporting strategic decision-making in M&A deals
- Researched and identified potential buyers and acquisition targets using Dun & Bradstreet databases and market intelligence tools to support transaction origination
- Conducted financial due diligence, including reviewing seller financial statements, deal structures, and risk assessments, ensuring optimal acquisition terms
- Assisted in the preparation of confidential information memorandums, deal teasers, and client presentations, assessing market opportunities, competitive positioning and strategic fit

SELECTED PROJECTS

U.S. Treasury Yield Curve Forecasting Model: Built LSTM models in Python using PyTorch to predict U.S. Treasury yields across six maturities. Processed global bond yields, macroeconomic data, and asset prices using pandas and NumPy, applying time series modeling and optimizing performance through hyperparameter tuning, achieving a 1Y yield RMSE of 0.1863.

Stock Price Monitoring & Trading Indicator: Developed a Python-based Spyder application for real-time stock price monitoring, integrating quantitative trading strategies such as moving averages, momentum oscillators, and volatility-based signals to optimize trade execution timing.

TECHNICAL CAPABILITIES

Software: Advanced Microsoft Excel (Pivot Table, V-Lookup, Solver, Tree Plan, Simulation), Python, Microsoft Access, Tableau, SQL, R

Machine Learning: A/B Testing, Hypothesis Testing, Classification Trees, Linear Regression, Logistic Regression, Random Forest, K-Means, PCA, Neural Networks, KNN, Recurrent Neural Networks, Convolutional Neural Networks, Long Short-Term Memory

Certifications: FINRA – SIE (In Progress, Expected April 2025), AWS Cloud Practitioner Essentials, HubSpot Inbound Certificate

ADDITIONAL INFORMATION

Canadian citizen (Eligible for TN Visa); Bilingual in English and Mandarin, conversational in Spanish
