

EMMANUEL JUSTUS

IT Auditor

Richmond, TX | +1 (346)360-8319 | ejustusconnect@gmail.com | LinkedIn

SUMMARY

Certified **IT Auditor** with **4+ years** of experience conducting **risk assessments**, **compliance audits**, and security evaluations across **AWS**, **Azure**, and on-premise environments. Proven track record of enhancing ITGCs, IAM policies, and vulnerability management to strengthen security posture and regulatory compliance. Expert in **NIST 800-53**, **ISO 27001**, **SOX**, **PCI DSS**, **HIPAA**, and **COBIT** frameworks, with hands-on expertise in RSA Archer (GRC), Nessus, **Active Directory**, and ServiceNow to streamline audit processes. Adept at automating audit workflows using PowerShell and Python, reducing manual efforts by 60%, and improving audit efficiency.

SKILLS

Security Frameworks & Standards: NIST CSF & NIST 800-53, ISO 27000, COBIT, PCI DSS, HIPAA, GDPR, ITIL

Risk & Compliance: Risk Assessment, Risk Management, Audit & Assessment, Third-Party Risk Management, ITGCs, SOX, GRC

Identity & Access Management (IAM): IAM, Active Directory

Cloud Security: AWS, Azure

Vulnerability & Threat Management: Vulnerability Assessment, Nessus, IDS/IPS

Scripting & Automation: PowerShell, Python

Operating Systems: Windows, Linux

Software & Tools: EXCEL

Soft Skills: Problem-solving and analytical thinking, Communication and stakeholder engagement, Project management skills, Attention to detail

EDUCATION

Master of Science in Computer Information Systems – Cybersecurity | Dec 2025
University of Houston - Victoria

Bachelor of Science in Computer Information Systems – Cybersecurity
University of Houston - Victoria

Bachelor of Computer Science | 2005
University Lagos – Lagos, Nigeria

Associate of Science in Computer Science
Houston Community College

CERTIFICATIONS

- Certified Information Systems Auditor (CISA)
- Certified Information Security Manager (CISM)
- Cisco Certified Network Association (CCNA)
- AWS Certified Cloud Practitioner
- AWS Certified Solution Architect Associate
- ServiceNow System Administrator

EXPERIENCE

IT Auditor | Sept 2022 – Present
MetLife, Omaha, NE

- Lead assessments for ISO 27001, NIST, SOX, SOC, PCI DSS, and COBIT compliance, ensuring adherence to regulatory requirements and industry best practices.

- Implement Multifactor Authentication (MFA) for AWS root accounts, including enforcing password rotation policies.
- Specialize in IT auditing across commercial sectors, focusing on ITGC, Application Controls, COBIT, and NIST 800-53 frameworks.
- Assess cloud environments on AWS and Azure for security controls, risk management practices, and compliance with regulatory frameworks.
- Conduct regular security audits to evaluate the effectiveness of Active Directory security measures, such as password policies, account lockout policies, and authentication mechanisms.
- Optimize IAM policies, reducing excessive permissions by 40% and strengthening least privilege access.
- Evaluate the design and operational effectiveness of IT processes, policies, and procedures to ensure compliance with SOX regulations and industry standards.
- Collaborate with Security and GRC teams to develop and implement a centralized audit evidence repository and GRC tool.
- Leverage RSA Archer (GRC) and ServiceNow to streamline governance, risk, and compliance (GRC) workflows, ensuring real-time tracking of risk assessments.
- Facilitate the development of ITGC status reports and remediation plans for top management.
- Execute vulnerability assessments and penetration testing to identify and mitigate security weaknesses, enhancing overall system security.
- Automate audit processes using Python and PowerShell scripting, streamlining data analysis and improving audit efficiency.

JR.IT Auditor

| Jul 2020 – Aug 2022

DXC Technology, Richardson, TX

- Collaborated with cross-functional teams, including IT, Compliance, and Audit, to enhance communication and understanding of IT and security control requirements.
- Executed SOX ITGC, automated controls, and report testing, as well as complex IT internal audits (operational, cybersecurity) in a highly technical environment.
- Conducted integrated audits involving IT and financial processes, focusing on automated controls and ITGC.
- Compiled SOC 1 audit reports, detailing the auditor's opinion on control effectiveness and management's assertions.
- Led SOC 2 and HIPAA compliance audits, ensuring IT processes aligned with required standards to mitigate risks.
- Performed SOX and PCI DSS regulatory compliance audits, verifying control design adequacy and operating effectiveness.
- Applied ISO 27001 frameworks to assess and enhance information security controls, achieving a 30% improvement in overall security posture.
- Maintained effective SOD within in-scope systems to protect the confidentiality and integrity of key inventory and financial data per SOX standards.
- Oversaw third-party risk assessments, ensuring 100% vendor compliance with cybersecurity frameworks.
- Delivered security audit findings to C-level executives and IT teams, driving a 20% increase in security investments.
