SUMMARY STATEMENT

Healthcare professional with 9+ years of clinical experience and demonstrated expertise in data analysis, visualization, and operational improvement. Proven track record of transforming healthcare data into actionable insights that drive quality improvements and optimize patient outcomes. Experienced in SQL, Tableau, and Python with strong background in healthcare analytics including outcome metrics, patient safety analysis, and patient experience metrics. Seeking to leverage clinical expertise and analytical skills as a Healthcare Data Analyst to support data-driven decision making in healthcare operations.

TECHNICAL SKILLS

Data Analysis & Visualization: Tableau, SQL (PostgreSQL, DML, DQL), Python (pandas, numpy)

Healthcare Analytics: Outcome metrics, quality improvement analysis, KPI tracking, patient safety metrics, patient experience metrics

Data Management: Excel-based reporting systems, data quality assessment, dashboard development

Business Intelligence: Report automation, self-service analytics, ad-hoc analysis

Communication: Stakeholder presentations, interdisciplinary collaboration

PROFESSIONAL EXPERIENCE

Rehab Lead - Physical Therapist | Richmond Community Hospital | Dec 2020 - Present

Transformed departmental reporting by implementing Excel-based chart review workflows that significantly reduced report generation time while improving data accuracy. Developed comprehensive Tableau dashboards for stroke outcome metrics and patient experience data, enabling stakeholders to identify clinical protocol improvement opportunities. Conducted data quality assessments and maintained data stewardship functions across multiple healthcare datasets.

Led operational analytics initiatives by analyzing staffing patterns against patient volume metrics to optimize scheduling across all rehabilitation disciplines. Performed ad-hoc analyses for hospital committees including Falls Committee (12-month patient fall data analysis identifying risk patterns) and Patient Experience Committee (customized Press Ganey reporting for all hospital departments to improve data literacy across the hospital).

Lead Physical Therapist | InMotion Physical Therapy | May 2018 - Dec 2020

Implemented data tracking systems for referral source analysis and conversion rate monitoring to inform strategic outreach initiatives. Analyzed practice growth metrics and performance

indicators to guide resource allocation and staffing optimization decisions. Managed operations for new clinic location utilizing data-driven approaches for business development.

Resident Physical Therapist | ProCare Physical Therapy | July 2016 - April 2018

Published research in Athletic Training and Sports Health Care demonstrating rigorous data analysis capabilities. Utilized Covidence platform for systematic data extraction and appraisal in clinical practice guideline development. Achieved Board Certification in Orthopedic Physical Therapy, demonstrating commitment to evidence-based practice.

EDUCATION & PROFESSIONAL DEVELOPMENT

Doctor of Physical Therapy | Lynchburg College | 2016

Clinical experience across diverse healthcare settings including Indian Health Service with strong foundation in evidence-based practice and clinical research methodology.

BS in Human Nutrition, Foods, and Exercise | Virginia Tech | 2013

Minor in Psychology with relevant coursework in Statistics and Research Methods..
