CAREER OBJECTIVE

To obtain a programming position as a Java developer for both back-end and front-end software development. Eager to make a meaningful impact in a collaborative and growth-oriented professional environment while gaining valuable industry experience.

EDUCATION

SOUTHERN ILLINOIS UNIVERSITY EDWARDSVILLE, EDWARDSVILLE, IL

Bachelor of Science in Computer Science, May 2023

- GPA: 3.41/4.0

CORE COMPETENCIES

- | | |
|--------|----------|
| • Java | • Python |
| • C++ | • C# |

PROFESSIONAL EXPERIENCE

AMAZON FULFILLMENT CENTER, St. Peters, MO

Warehouse Associate, June 2023 – September 2023

- Safely packaged selected items to ensure they are securely and appropriately prepared for shipment to customers
- Conducted inspections to verify the quality and accuracy of packed items
- Maintained accurate records of inventory levels and reported discrepancies or shortages to supervisors

PROJECTS

SENIOR DESIGN PROJECT

- Collaborated with 3 teammates to establish a database that stores confidential information from existing medical records called incident reports
- Utilized Microsoft SQL Server and C# to drive backend development and to ensure efficient database management

INTERNET RELAY CHAT PROJECT

- Implemented a light-weight version of Discord using TCP-based multi-threading, establishing client-to-server and server-to-server communication with C++
- Established authentication management for both client and server registration using Base64 and log file creation

DESIGN RESEARCH PROJECT

- Coordinated with 3 teammates to design a tutorial application for smartphones, focusing on all aspects of design, prototyping and documentation

CHECKBOOK PROJECT

- Developed a checkbook system for a shipping service with 3 teammates, implementing various use cases and sequence diagrams while using Redmine for project management
