PROFESSIONAL EXPERIENCE

09/2022 to Present

Conduent Legal and Compliance Solutions, LLC — Albany, NY

Data Management and Analysis Services Associate

- Validate and process data using a series of scripts (codes), e-Discovery platforms (Relativity and Viewpoint) and queries
- Verified client requirements being applied on production work requests within time bound by analyzing user requirements, procedures, and problems to improve existing systems
- Developed SQL commands to verify the client's data at backend
- Maintained excellent attendance record, consistently arriving to work on time
- Resolved assigned-distributive data problems, improved operations and provided exceptional client support
- Worked closely with team members to ensure jobs are completed in a timely manner and co-ordinate teams of computer analysts

09/2019 to 03/2020

Wolfram Research Institute — Champaign, IL

Web Research Assistant

- Followed the guideline to compile certain majors and job titles (associate/assistant/adjunct professor)
- Created and maintained to report documentations monthly for how many colleges and emails I compiled and how long it took to do so
- Utilized an excel to compile and tracked how many emails were collected on each college
- Maintained excellent attendance record, consistently arriving to work on time
- Resolved assigned-distributive data problems, improved operations and provided exceptional client support
- Managed quality assurance program, including on-site evaluations, internal audits and customer surveys
- Developed team communications and information for team building meetings

01/2019 to 05/2019

University of Illinois at ATLAS — Urbana, IL

Data Analyst - Intern

- **Used SQL** to find factors such as retention and completion rates in 4 years, tuition, and races to analyze and interpret real data from the CSC (College Scorecard)
- **Analyzed the behavior of the data** from research plans of data to compare Ivy Leagues and Big 10 Universities
- **Used Tableau** to compare and evaluate current trends of universities' factors and the college data
- Organized cross functional meeting for problem solving and project control
- Executed presentation of the final project with my team to other teams in this ATLAS internship (they are non-technical audiences)
- Created various Excel documents to assist with pulling metrics data and presenting them to give concise understanding of best placement for needed resources

08/2017 to 12/2018

University of Illinois at Technology Services – Urbana IL

Student Operation Assistant

- Created the building environment to improve services for customers' various requests
- Professionally communicated with the supervisor and team for maintaining/providing the better conditions of the lab environment
- Worked with university students and faculties to understand needs and provide technical service
- Devoted special emphasis to punctuality and worked to maintain outstanding attendance record, consistently arriving to work ready to start immediately
- Resolved conflicts and negotiated mutually beneficial agreements between parties
