

Gayathri Nellutla

Boca Raton, FL | ngayatri2000@gmail.com | (561)-774-1956

LinkedIn: <http://linkedin.com/in/gayathrinellutla>

Summary:

Data Science & Analytics graduate student with internship experience in data analytics and machine learning, skilled in Python, SQL, Tableau, Power BI, and predictive modeling. Seeking a full-time Data Analyst role to apply advanced analytics and deliver actionable business insights.

Education:

Florida Atlantic University – Boca Raton, FL

Master of Science in Data Science | GPA: 3.5/4.0 | Expected Dec 2025

Vignan's Institute of Management & Technology for Women – Hyderabad, India

Bachelor of Technology in Electronics & Communication Engineering | Aug 2022 | GPA: 3.0/4.0

Experience:

Data Analytics Intern | Pantech Solutions Pvt. Ltd | Hyderabad, India | May–Jun2025

- Cleaned and processed large datasets using Python (pandas, NumPy) and SQL to ensure data accuracy and consistency.
- Performed exploratory data analysis (EDA) and generated statistical summaries to uncover patterns and key business insights.
- Built interactive dashboards and visual reports in Tableau/Power BI to present findings to technical and non-technical stakeholders.

Data Science Intern | Worksbot Applications Pvt. Ltd | Chennai, India | March–May 2022

- Led end-to-end data pipeline development, using Python (pandas, NumPy) and SQL to acquire, clean, and transform multi-source datasets for advanced analytics.
- Designed and implemented predictive models and statistical analyses (regression, classification) with scikit-learn, improving forecast accuracy and supporting strategic planning.
- Built interactive dashboards and visual reports in Tableau/Power BI, translating complex findings into actionable insights for business stakeholders.

Projects:

Global Sales Performance Dashboard | SQL, Power BI, Excel

- Developed an interactive dashboard to monitor revenue, profit, and product performance by region.
- Automated sales reporting, reducing manual effort by 40% and enabling faster business decisions.
- Identified top-performing products and regional trends that influenced strategic planning.

Cybersecurity Threat Analytics Dashboard | Python, SQL, Power BI

- Processed login and network log data to detect anomalies and phishing attempts.
- Created dashboards that improved threat detection by 30%, strengthening risk management
- Supported compliance by generating actionable security reports for leadership.

Technical Skills:

Programming & Databases: Python, SQL, MySQL

Data Analysis & Visualization: Excel, Tableau, Power BI, Pandas, Numpy, Data Cleaning & Visualization

Machine Learning: Scikit-learn, Predictive Modeling, Logistic Regression, Random Forest, Supervised Learning, Feature Engineering, EDA (Exploratory Data Analysis)

Cloud & Tools: Jupyter Notebook, Google Colab

Cerification:

- SQL for Data Science and Analytics
- Excel for Data Analysis and Reporting
- Tableau and Power BI for Data Visualization
- Machine Learning Internship Certification
- Deep Learning Certification
