PROFESSIONAL EXPERIENCE

Business and Data Analyst with 3+ years of experience across **healthcare, technology, and higher education**. Proficient in **SQL, Python, R, Power BI, Tableau**, PostgreSQL, **LLM**, Snowflake, Databricks, AWS Redshift, Azure Synapse Analytics, Alteryx, and **Jira** for **data analysis**, business requirements, **ETL validation**, dashboard development, **UAT**, **process optimization**, and **data governance**. Specialized in translating complex datasets into actionable insights that support operational and strategic decision-making.

PROFESSIONAL EXPERIENCE

Researcher (Data Analyst) | Arizona State University | USA

Feb 2026 - Present

- Analyzed academic and survey datasets using **Pandas**, and **Jupyter Notebook** to clean, transform, and examine **250K+** institutional records supporting faculty research projects and academic reporting.
- Developed statistical analysis workflows using **R, RStudio, tidyverse**, and **Regression Analysis** to evaluate **75K+** survey responses, generating research insights for ongoing university studies and publications.
- Queried research databases using **SQL, PostgreSQL**, and **IBM SPSS Statistics** to validate **300K+** records, improving data accuracy for faculty reports, research documentation, and analytical deliverables.
- Managed research data collection processes using **Qualtrics, REDCap, Microsoft Excel**, and **Microsoft Teams** while coordinating with faculty members and graduate assistants to organize **20+** structured datasets.
- Created analytical dashboards and reporting frameworks using **Power BI, DAX, Git**, and documentation standards, delivering **30+** research reports that supported faculty projects and institutional analytics initiatives.

Business Analyst/Data Analyst | Optum | India

Sep 2022 - Dec 2023

- Formulated comprehensive **BRDs, NLP** text classification requirements, and **UAT** test scenarios through stakeholder workshops, supporting enhancements across **14 healthcare applications** while reducing requirement clarification cycles during project delivery.
- Synthesized interactive **Tableau** dashboards, **SQL** reporting datasets, and **EDI 837** claims data through root-cause analysis, improving reporting accuracy and resolving data quality issues across **35 operational healthcare workflows**.
- Engineered automated **Python** scripts, **Scikit-learn** anomaly detection models, and **HIPAA** data validation checks by reconciling healthcare claims datasets, eliminating **18 critical defects** before production releases.
- Steered cross-functional requirement workshops, **Jira** backlogs, and **predictive analytics** reporting initiatives with **8 business and technology stakeholders**, delivering **2 enterprise claims processing enhancements** aligned with compliance requirements.
- Pioneered standardized **BPMN** process models, **Microsoft Visio** workflow diagrams, and **Alteryx** data preparation alongside **12 senior engineers**, strengthening documentation consistency and supporting regulatory compliance with **2 audit findings**.

Business Analyst | Dell Technologies | India

Jun 2021 - Aug 2022

- Analyzed **50+ operational data elements** using **SQL** and **Python**, performing KPI analysis and trend evaluation that supported data-driven recommendations across product and marketing initiatives.
- Developed 7 executive dashboards and automated reporting solutions using **Advanced Excel (Power Pivot, Pivot Tables, Charts, Slicers, Power Query)** and **Power BI**, improving performance visibility and enabling leadership teams to monitor critical business outcomes.
- Conducted **14 root-cause investigations** through **SQL-based analysis** and reporting reviews, identifying operational issues that improved reporting reliability and stakeholder decision-making.
- Evaluated **8 A/B testing experiments** using statistical techniques, and business metrics, supporting product enhancement decisions and optimization initiatives across customer-facing workflows.
- Authored functional documentation for **26 reporting requirements** and **5 operational initiatives** within **Confluence**, improving delivery consistency and requirements transparency within **4+development teams**.
- Facilitated **18 stakeholder workshops** and translated business needs into **43 user stories** within **Jira**, strengthening collaboration between business teams and solution delivery groups.
- Identified **8 workflow automation opportunities** through process assessments and reporting analysis, supporting **Power Automate** initiatives that reduced manual effort across **3 internal business functions**.

TECHNICAL SKILLS

- Programming & Data Analysis:** SQL, Python, Pandas, NumPy, R, Advanced Excel, VBA, Statistical Analysis, Exploratory Data Analysis (EDA), Data Cleaning, Data Validation, Trend Analysis, Forecasting, A/B Testing
- Business Intelligence & Visualization:** Power BI, DAX, Power Query, Tableau, Looker Studio, Qlik Sense, Data Visualization, Dashboard Development, KPI Reporting, Executive Reporting, Data Storytelling
- Database & Cloud Analytics:** SQL Server, Oracle, PostgreSQL, MySQL, Snowflake, Databricks, Azure Synapse Analytics, Azure Data Factory, Amazon Redshift, Amazon S3, Google BigQuery, Data Warehousing, ETL, Data Modeling, Dimensional Modeling
- Business Analysis:** Requirements Gathering, BRD, FRD, User Stories, Acceptance Criteria, Process Mapping, Workflow Analysis, Gap Analysis, Business Process Improvement, Stakeholder Management, UAT Testing, Test Case Documentation
- Data Governance & Quality:** Data Governance, Data Quality Analysis, Data Profiling, Metadata Management, Data Lineage, Master Data Management (MDM), Data Compliance, Data Stewardship
- AI & Modern Analytics:** Generative AI, Large Language Models (LLMs), Prompt Engineering, AI-Assisted Analytics, Natural Language Query (NLQ), Microsoft Copilot
- Tools & Collaboration:** Jira, Confluence, Microsoft Visio, Lucidchart, Miro, ServiceNow, SharePoint, Microsoft PowerPoint
- Methodologies:** Agile Methodology, Scrum, SDLC, Waterfall, Change Management

EDUCATION

Masters in Information Technology | Arizona State University | Arizona, USA

Jan 2024 - Dec 2025
