Arvada, CO 80002

Summary

Software & Network Engineer with hands-on development experience at Lumen Technologies. Skilled in C++, Python, TypeScript, and full-stack web development. Specialized in backend services, automation, and cloud-native tooling (Docker/Kubernetes). Experienced in building testing platforms, API-driven workflows, and AI-integrated network tools that improve reliability and operational efficiency.

Skills

- **Languages:** Python, C, C++, TypeScript, JavaScript, SQL, HTML/CSS
- **Software Engineering:** CI/CD, Agile, OOP, functional programming, automated testing
- **Frameworks/Tools:** React, Node.js, FastAPI, Django, Docker, Kubernetes, Git
- **Networking & Systems:** Linux/Unix, Windows, network configuration, RESTful APIs

Experience

- | | | |
|---|-------------------------------------|------------------|
| Network Engineer I | Lumen Technologies - Denver, CO | 1/2025 - Present |
| <ul style="list-style-type: none">• Designed and implemented backend automation services in Python (FastAPI) using asynchronous message queues to accelerate fiber network testing throughput.• Developed full-stack web apps using Django, React, and Docker to automate lab workflows and reduce manual testing time.• Built containerized microservices and CI/CD workflows to support rapid iteration and reliable deployment.• Monitored, optimized, and maintained internal testing applications to ensure high system availability and performance. | | |
| Test Engineer Intern | Lumen Technologies - Denver, CO | 5/2024 - 1/2025 |
| <ul style="list-style-type: none">• Developed firmware testing automation scripts in Python to streamline regression and validation workflows.• Built internal testing dashboards and tools using React and Node.js to visualize device and network performance.• Collaborated with senior engineers to expand testing frameworks and improve reliability of validation pipelines. | | |
| Laboratory Scientist II | National Jewish Health - Denver, CO | 7/2022 - 7/2024 |
| <ul style="list-style-type: none">• Executed high-volume clinical tests while ensuring compliance with regulatory documentation.• Optimized laboratory efficiency through process enhancements and adherence to SOPs.• Trained new staff on laboratory protocols to ensure operational consistency. | | |

Education

- | | | |
|--|-------------|---------|
| University of Colorado | Boulder, CO | 12/2024 |
| BS - Applied Computer Science | | |
| <ul style="list-style-type: none">• Relevant coursework: Machine Learning, Data Science, Software Development, Computer Systems• Technologies: Python, C++, C, Javascript, Scala | | |
| University of Colorado | Boulder, CO | 5/2022 |
| BA - Molecular, Cellular, Developmental Biology | | |
| <ul style="list-style-type: none">• Relevant coursework: Cellular Biology, Molecular Biology, Anatomy and Physiology, Organic Chemistry, Inorganic Chemistry, Physical Chemistry• Minors: Chemistry, Biochemistry | | |
