Professional Summary

Results-driven **Full Stack Java Developer** with **3+ years of real-time experience** designing, developing, and deploying robust web applications using **Java, Spring Boot, Hibernate, Angular, React, and RESTful APIs**. Skilled in building **Microservices**, integrating **CI/CD pipelines**, and working with **Docker** and **AWS**. Experienced in working within **Agile/Scrum** teams and ensuring code quality through **JUnit, Mockito, and SonarQube**. Demonstrates strong problem-solving, team collaboration, and software design skills. Seeking a challenging Full Stack Java Developer position where I can leverage my expertise in Microservices and AWS to build scalable and efficient enterprise-grade solutions.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, SQL
 - **Frameworks:** Spring Boot, Spring MVC, Hibernate, Angular, React.js
 - **Web Technologies:** HTML5, CSS3, JavaScript, jQuery
 - **Databases:** MySQL, PostgreSQL, MongoDB
 - **Methodologies & Tools:** Maven, Git, GitHub, Jenkins, Eclipse, VS Code, Postman, Swagger, SonarQube
 - **Testing:** JUnit, Mockito, Selenium
 - **DevOps & Cloud:** Docker, AWS (EC2, S3, RDS), Kubernetes (basic)
 - **Others:** RESTful APIs, Agile, JIRA, CI/CD, Logback
-

Professional Experience

Full Stack Java Developer

Client: Elevance Health, Kentwood, MI

May 2024 – Present

Project: Health Benefits Claims Portal

- Developed and maintained **React.js**-based UI components, integrating with secure **Spring Boot REST APIs**.
- Designed backend **Microservices** architecture for handling claims workflows using **Spring Boot** and **Hibernate**.
- Implemented **JWT authentication** and **OAuth2** for internal and third-party API access control.
- Configured **Jenkins pipelines** to automate build, test, and deployment stages.
- Created and maintained **Docker containers**, deploying services to **AWS EC2** instances.
- Built reusable components and ensured UI followed **WCAG accessibility standards**.
- Achieved **85% test coverage** with **JUnit** and **Mockito**, integrating into CI workflows.
- Used **Swagger** for documenting and consuming RESTful APIs and **Postman** for testing endpoints.
- Integrated **Redis caching** to reduce Database calls by 20% and improve response time for critical endpoints.
- Followed **Agile methodology**, actively participating in daily standups, sprint planning, and retrospectives.
- Configured centralized **logging and exception handling** using **Logback** and **Spring AOP**.

Environment: Java, Spring Boot, React.js, Hibernate, MySQL, Docker, AWS EC2, Jenkins, GitHub, Swagger, Postman, JUnit, Mockito, VS Code, Agile, JIRA

Java Developer

Client: Anblicks, Hyderabad, India

June 2021 – July 2023

Project: Clinical Trial Management System (CTMS)

- Developed web applications for managing trial data using **Spring Boot**, **Hibernate**, and **Angular**.
- Designed and implemented **REST APIs** for CRUD operations, secured with **Spring Security**.
- Worked on **Angular** components, services, and routing modules for dynamic front-end behaviour.
- Integrated **MySQL** as the database layer using **Hibernate/JPA** for ORM.
- Used **Maven** for dependency management and **GitHub** for version control and PR reviews.
- Participated in **Sprint Planning** and contributed to daily Scrum ceremonies with QA and PMs.
- Built automated test cases with **JUnit** and used **Mockito** for mocking service layers.
- Implemented CI pipelines using **Jenkins** for automated builds and test executions.
- Developed API test suites in **Postman** and created API documentation using **Swagger**.
- Applied **Selenium** for end-to-end testing and UI regression validation.
- Conducted code quality checks with **SonarQube**, ensuring maintainability and coverage.

Environment: Java, Spring Boot, Angular, Hibernate, MySQL, Jenkins, Git, Swagger, Postman, JUnit, Mockito, Selenium, Maven, Agile

Education

Master of Science in Computer Science | University of Dayton, Dayton, OH

Expected Graduation: May 2025

Bachelor of Technology in Computer Science Engineering | Parul University, Vadodara, Gujarat, India | Graduated: 2023

Certifications

- Java Full Stack Developer Certification – Udemy
 - Spring Boot & Microservices Certification – Coursera
 - AWS Certified Developer – Associate (In Progress)
-
