

Isha Laad

Business Analyst

ishalaad77@gmail.com | +1 (267) 244-5161 | [LinkedIn](#)

SUMMARY

- Around 5+ years of experience as a Business Analyst with expertise in leveraging SQL for advanced querying, data manipulation, and analysis to deliver actionable insights that support business decision-making.
- Working Knowledge of Agile, Waterfall, and Software Development Life Cycle (SDLC) processes.
- Experienced in optimizing SQL queries and implementing data modeling techniques to enhance data retrieval speed, improve reporting accuracy, and streamline business processes.
- Good knowledge of project life cycle, project management processes, principals, knowledge areas, and various project management tools such as MS Project, MS Excel, and MS SharePoint.
- Proficiency in generating on-demand and scheduled reports for business analysis or management decisions using Tableau and Power BI.
- Strong expertise in generating ad-hoc and scheduled reports to support data-driven decision-making processes, ensuring accuracy and timely delivery of insights.
- Ability to Facilitate JAD sessions for the gathering, synthesizing, and prioritizing of requirements using interviews, requirements workshops, site visits, and surveys.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Documentation: FRD, BRD, SRS

Project Management Tools: MS Project, MS Excel, MS SharePoint, Ms visio

Visualization Tools: Tableau, Power BI, BIRT

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis

Tracking/Other Skills: Jira, Microsoft Visio, HP Quality Center, JAD, RTM, UAT, Confluence, Figma, SQL

Soft Skills: Time management, Leadership, Problem-solving, Decision-Making, Documentation and Presentation, Verbal communication

Operating System: Windows, Linux

WORK EXPERIENCE

Medical University of South Carolina, Business Analyst III, May 2024 - Present

- Demonstrated expertise in advanced SQL, data modeling, and ETL processes to improve data quality, reduce errors, and streamline reporting, achieving up to 40% efficiency gains.
- Automated recurring reports and developed interactive dashboards in Power BI and BIRT, streamlining reporting processes and enhancing accuracy.
- Leveraged advanced Excel skills to optimize data analysis and reporting workflows, reducing reporting errors by 25% and improving data turnaround time by 30%.
- Collaborated with cross-functional teams to identify reporting needs and ensure data solutions aligned with organizational objectives.

Allstate, Business Analyst (New Jersey), Dec 2022 – May 2024

- Develop interactive dashboards using Tableau, providing real-time insights into key performance indicators, resulting in improved data-driven decision-making and a 20% reduction in manual reporting efforts.
- Streamlined database operations by creating efficient stored procedures, improving query performance and reducing processing time by 25%.
- Collaborate with a cross-functional team of members during UAT, achieving a 98% defect resolution rate and ensuring the successful delivery of high-quality software product.

Wide Vision Technologies, Business Analyst (India), Sept 2018-Feb 2021

- Provided SQL queries to the developer as source queries to identify the data provided logic to assign.
- Successfully negotiated with vendors, achieving a 15% cost reduction for software licensing and maintenance, resulting in substantial cost savings for the organization.
- Worked with data models with complex relationships in Power BI and connected different data sources to the Power BI desktop.
- Received positive feedback from stakeholders for delivering clear and concise documentation, improving project understanding, and reducing miscommunication by 30%.

Education

Master in Business Analytics, Drexel University, Philadelphia, PA

Post-graduation diploma in Computer application

Devi Ahilya Vishwavidyalaya University in Indore, Madhya Pradesh

Bachelor in Computer Application

Devi Ahilya Vishwavidyalaya University in Indore, Madhya Pradesh
