Experience

Tableau Citizen Data Science Certificate Program (Aug 2020 – Dec 2024)

- Developed and optimized an interactive Tableau dashboard to visualize and analyze data for mock companies, facilitating informed business decisions.
- Created several interactive worksheets to compare key metrics from different datasets, helping uncover valuable insights that contributed to improving business strategies.

Capstone Simulation (Spring 2024)

- Used Capsim to simulate running a company in a competitive market, making strategic decisions to drive growth and gain a competitive edge.
- Worked closely with a team to manage marketing analysis, finances, inventory, and overall strategy for our simulated business.

Global Tech Experience in the Digital Marketing Track (Summer 2023)

- Gained practical experience in Digital Marketing by building an eCommerce website on Shopify, creating engaging content for Facebook and Instagram, and managing ad campaigns on Google and Meta.
- Collaborated with a diverse group to learn how companies use digital technology and social media to grow their business and make smarter decisions.

Park USF Mock Application Presentation (Fall 2022)

- Developed and presented an implementation plan for a mock app aimed to improve the campus parking experience.
