Professional Summary

Certified **Azure Data Scientist Associate** and experienced **Tableau Developer** with 3 years of expertise in transforming complex data into actionable insights. Proficient in **data visualization, statistical analysis, and machine learning**, with a proven track record of delivering impactful solutions. Skilled in **Tableau, Tableau Server, SQL, Python**, and **R**, with a passion for leveraging data to drive strategic business decisions and process improvements.

Technical Skills

- **Programming Languages:** Python, R, SQL
 - **Data Analysis & ML:** Pandas, NumPy, Scikit-learn, Regression, Classification, Clustering
 - **Data Visualization:** Tableau, Tableau Prep, Matplotlib, Seaborn
 - **Databases:** PostgreSQL, Oracle, MongoDB
 - **Tools:** Jupyter Notebooks, Excel, Tabcmd
-

Professional Experience

Tableau Developer

Tata Consultancy Services (TCS) | Indore, Madhya Pradesh | *January 2022 – Present*

Client: Bed Bath & Beyond

- Designed 10+ interactive Tableau dashboards, improving sales performance tracking and inventory management accuracy by 18%.
- Automated data extraction using Python and SQL, reducing manual efforts by 31%.
- Enhanced customer segmentation by 25% through advanced Tableau calculations and parameters.
- Improved sales forecasting accuracy by 15% using refined data visualizations.

Client: Macy's

- Built 5+ executive dashboards to monitor real-time store performance, improving decision-making speed by 25%.
- Integrated data from 3+ sources in Tableau, ensuring a unified view for stakeholders.
- Streamlined data preparation time by 50% using Tableau Prep.
- Conducted customer analytics, boosting targeted marketing effectiveness by 20%.
- Optimized database performance using SQL indexing, achieving 30% faster report generation.

Client: Kaiser Permanente

- Developed 12+ Tableau dashboards for healthcare analytics, enhancing visibility of patient outcomes by 40%.
 - Implemented predictive models in Tableau, increasing staffing forecast accuracy by 20%.
 - Created 5+ custom visualizations to identify trends in patient experience and hospital performance.
 - Improved Tableau Server efficiency by 15% through proficient administration and Tabcmd scripting.
-

Education

Master of Business Administration (MBA) in Data Science

Manipal University, Udupi, Karnataka | April 2023 – March 2025

- **Relevant Coursework:** Machine Learning, Data Mining, Statistical Inference, Data Visualization, Database Systems
-

Certifications

- **Microsoft Certified: Azure Data Scientist Associate**
 - **Tableau Desktop Specialist** – Udemy
-

Projects

Spotify Data Analysis

- Analyzed song durations and genres using Matplotlib and Seaborn, adding genre-specific insights with visualizations.
- Identified top 10 genres using Pandas, improving clarity on distribution trends.

Heart Disease Analysis

- Derived insights on cholesterol and BMI using Pandas, Matplotlib, and Seaborn for heart disease risk factors.

Iris Dataset Analysis

- Enhanced dataset usability by calculating flower area and focusing on critical features like petal and sepal lengths.
-

Languages

- **English:** Fluent
-

Soft Skills

- Analytical Thinking | Problem-Solving | Team Collaboration | Attention to Detail | Communication
