Professional Summary

Motivated and detail-oriented professional with a strong background in public health, data entry, and healthcare systems, seeking to contribute analytical and problem-solving skills as an Entry-Level Clinical Data Analyst at Sytex Solutions. Dedicated to ensuring data accuracy, integrity, and compliance to support improved patient outcomes and streamlined clinical operations- with a positive attitude.

Education and Certification

- Master of Public Health, Liberty University, Lynchburg, VA May 2019
- Bachelor of Science, University of West Florida, Pensacola, FL May 2015
- NCHEC Certified Health Education Specialist (CHES); 35527

Professional Experience

Title: Program Specialist

Peak Performers

Supervisor: Laurie Henefey 8305914386

(Contract for Texas Department State Health Services)

January 2025- April 2025

- Collected, cleaned, and validated immunization data from various healthcare providers statewide.
- Managed large volumes of provider and patient data, regularly performing data entry, cross-checks, and corrections to maintain compliance with CDC and HIPAA standards.
- Generated reports and visualizations to track trends in vaccination rates and identify outreach opportunities.
- Analyzed recruitment and immunization participation data to assess program effectiveness and recommend data-driven improvements.
- Collaborated daily with cross-functional teams — including Public Health Regions, local health departments, and community health partners — to share validated data, resolve discrepancies, and enhance program reach.
- Collaborated cross-functionally with public health regions and community stakeholders to ensure data accuracy and integrity.

Title: Real Estate Assistant

Elevate Realty/ Real Broker, LLC

March 2022- July 2024

- Coordinated over 40+ residential real estate transactions from lead generation through closing, ensuring complete accuracy of contracts, disclosures, pricing, and compliance documents.
- Performed extensive data entry into MLS platforms, Dotloop, SkySlope, and CRM systems, maintaining high standards of data integrity and up-to-date records.
- Created, organized, and updated client databases and automated follow-up communications to improve client engagement and support strategic decision-making.
- Generated reports and tracking documents to monitor transaction progress, identify missing items, and ensure compliance with state and federal guidelines.
- Developed and maintained Standard Operating Procedures (SOPs) for transaction workflows to ensure consistency, accuracy, and efficiency across the team.
- Collaborated daily with cross-functional stakeholders including agents, lenders, inspectors, appraisers, and clients to gather and verify critical data.
- Identified trends and discrepancies in listing data and proactively resolved data issues to prevent compliance risks.
- Produced clear client-facing documents, presentations, and summaries to communicate complex information in an understandable way.

Title: Infection Preventionist

Infection Prevention & Management Associates
(Contract for Encompass Health San Antonio)

November 2020- November 2021

- Collected, cleaned, and analyzed surveillance data on healthcare-associated infections (HAIs) using EHR systems and infection prevention software to identify trends, anomalies, and compliance gaps.
- Entered and validated infection data across multiple systems, ensuring accuracy and alignment with CDC, CMS, and Joint Commission reporting standards.
- Monitored data feeds from multiple departments (facilities, nursing, pharmacy, laboratory) to verify data consistency and integrity across workflows.
- Developed and generated regular reports, dashboards, and summary presentations to communicate infection trends, outbreak investigations, and compliance status to senior leadership and quality committees.
- Led root cause analyses and process audits, interpreting complex data sets to drive evidence-based decisions and policy improvements.
- Trained and educated staff on best practices for accurate documentation, reporting procedures, and compliance with infection control protocols.
- Collaborated cross-functionally with facilities management, supply chain, nursing teams, and quality control to ensure timely data collection and alignment with regulatory standards.
- Supported external audits and inspections by preparing precise, organized data sets and responding to ad hoc data requests under tight deadlines.
- Stayed current on CDC/NHSN reporting criteria, infection prevention trends, and data reporting requirements through continuous professional development.

Title: Health Promotion Department Apprentice

American Red Cross

January 2019- May 2019

18th Medical Group, Kadena Air Base, Okinawa, Japan

- Designed and delivered educational sessions and outreach campaigns targeting injury prevention and wellness for diverse audiences, including high school and active-duty populations.
- Collected demographic and health data to support wellness and injury prevention programs.
- Designed and maintained data tracking tools in Excel, ensuring data integrity and accessibility for program evaluation.
- Analyzed survey responses and presented findings using clear visualizations and summary reports.
- Collected and presented demographic data to drive strategic planning.

Title: Pharmacy Technician Trainee

American Red Cross

October 2019- June 2020

18th Medical Group, Kadena Air Base, Okinawa, Japan

- Managed prescription data entry and validation using CHCS and AHLTA systems.
- Maintained high levels of accuracy in filling, tracking, and reporting prescription data.
- Supported compliance with pharmacy policies and federal standards.
