Analytics: Michigan State University, *East Lansing, MI*

Bachelor of Science in

Biology: Michigan State University, *East Lansing, MI*

PROJECTS

Measures of Gentrification Across Various Michigan Counties

https://github.com/DaSambonil/project1_group3/tree/main

- **Summary:** Using the Census API, this project seeks to use census data to analyze and compare changes in comparable MI counties (i.e. Kent, Muskegon, Oakland, & Saginaw) to determine the risk of gentrification.
- **Role:** Worked in a 5-Person team and compiled data from the Census Bureau using the Census API's Python wrapper into a dataframe. Then cleaned and analyzed the Census Data.
- **Tools:** Python, Jupyter Notebook, Census-API, CPI, Pandas, Matplotlib, Scipy, Numpy, Seaborn, and GitHub

Data Engineering: Traffic-Accidents-USA

https://github.com/DaSambonil/project3_group2

- **Summary:** In this project, the objective was to observe and analyze the patterns and driving trends of different regions within the US (e.g. which areas are safer to drive based on various factors such as frequency of accidents, time of day, car make, and etc).
- **Role:** Worked in a 5-Person team and used ETL Workflows to ingest data into the database. In addition, transformed/cleaned the original dataset prior to storing it within a database (SQLite).
- **Tools:** SQL, PostgreSQL, CSV file, SQLite, Python, Jupyter Notebook, Pandas, GitHub, Seaborn

PROFESSIONAL EXPERIENCE

Service Express

Business Intelligence Intern

Grand Rapids, MI

May 2025 - Present

- Assist in the design, development, and maintenance of dashboards and reports in Power BI to support data-driven decision-making.
