EXPERIENCE

Graduate Admission Coordinator Seattle, WA
Seattle University Jun 2024 – Dec 2025

- Audited and processed graduate applications in Slate, ensuring accurate and compliant records.
- Performed funnel and trend analysis on applicant data, built Tableau dashboards, and produced summary memos to guide resource allocation during peak admissions seasons.

Business Analyst Intern Remote
InPower Jun 2025 – Aug 2025

- Supported the co-founder in reassessing valuation by developing an Excel-based benchmarking dashboard analyzing 12 peer companies, the North American wellness market, and customer trends.

Equity Research Analyst Seattle, WA
Seattle University Redhawk Fund Jun 2024 – Jul 2025

- Built Excel-based financial models and multi-year forecasts to analyze company performance and support data-driven recommendations.
- Delivered executive-level analysis that contributed to approved recommendations, including FMC and First Solar.
- Conducted market, peer, and risk analysis and presented insights through clear, decision-focused PowerPoint decks.

Research Assistant Seattle, WA
Seattle University Oct 2023 – Jul 2024

- Collected, cleaned, and processed survey data from 500+ individuals across 50 teams, ensuring accuracy and reliability for faculty-led research on team dynamics.
- Led data analysis and correlation visualization on team boundedness and external engagement using Python, and SPSS, identifying behavioral patterns that informed key research findings.
- Redesigned an Excel-based analytical model with clearer logic and documentation, improving usability for future users and earning faculty recognition.

Product Analyst Intern Ho Chi Minh City
Trusting Social Jun 2023 – Aug 2023

- Led analytics and business planning for pilot initiatives, reducing cost per card by 50% through optimized acquisition strategy.
- Built live KPI and ROI dashboards using Excel and Google BigQuery to support go / no-go decisions, preventing a projected \$100K+ loss

Fixed Asset Analyst – Financial Accounting Issaquah, WA
Costco Wholesale (Contract) Feb 2022 – Feb 2023

- Supported fixed-asset accounting and CIP tracking across Midwest warehouses, ensuring accurate capitalization, GAAP compliance, and timely close.
- Tracked 30+ CIP projects per period in Excel and Smartsheet and reconciled SAP asset and GL accounts, resolving variances to improve cost control and audit readiness.
