

ABU AMAAN KHAN

akhan61@simon.rochester.edu | Rochester, New York | +1 (585) 202-9538 | <https://www.linkedin.com/in/abuakhan>

PROFESSIONAL SUMMARY

Results-driven Business Analyst with extensive experience in leveraging advanced analytical tools such as MS Excel, SAP, Tableau, Alteryx, Docker, GitHub, and HTML to enhance forecast accuracy, operational efficiency, and business growth. Proven expertise in SCM forecast planning, developing predictive models, and creating insightful data visualizations to drive strategic decision-making. Recognized for exceptional problem-solving abilities, strategic thinking, and a commitment to improving supply chain operations through data-driven strategies. Adept at collaborating with cross-functional teams, managing tactical projects, and generating detailed reports for internal stakeholders and executive management. Bringing strong communication skills, a robust technical and analytical background, with a focus on identifying root causes of operational failures and implementing corrective actions to optimize stock levels and meet forecasted demand

PROFESSIONAL EXPERIENCE

Happy Punjab

New Delhi, India

Business Analyst | R, Python, MS Excel, SQL, Tableau, HTML, Docker, GitHub, Spark

March 2020 – June 2023

- Pioneered a comprehensive, data-driven risk assessment strategy, using artificial intelligence to reduce logistics costs by 10%, optimized the supply chain with R, Python, and MS Excel. This resulted in a 10% boost in on-time deliveries and a 15% growth in business
- Developed predictive models with SQL and Spark, leading to a 20% decrease in stockouts and a 25% increase in procurement efficiency. Enhanced decision-making by integrating complex analytics insights with Tableau, improving strategic planning accuracy by 30%
- Utilized HTML for data visualization dashboards and leveraged Docker and GitHub for development and version control. Achieved a 15% reduction in operational risks through advanced data analytics and business and artificial intelligence integration

Metvy

New Delhi, India

Business Analyst and Developer | Python, Jupyter Notebook, MS Excel, Tableau, Power BI

December 2022 - February 2023

- Transformed sales forecasting through predictive modeling with Python and Jupyter Notebook, achieving a remarkable 25% reduction in inventory costs. Showcased adept design patterns, data-driven decision-making skills and a commitment to operational efficiency
- Excelled in crafting compelling data visualizations using Tableau and Power BI, enhancing the clarity and effectiveness of reports for internal customers and executive management. Collaborated on developing custom algorithms for sales analytics, recognized with Metvy's Sales Excellence Award for outstanding contributions. Provided monthly snapshots of demand forecast and major SCM KPIs, bridging the gap between planning and execution on a weekly basis using MS Excel and compliance standards. Identified root causes of operational failures, implemented corrective actions, and drove a 25% improvement in procurement efficiency
- Developed standardized reports for the B2B Team, facilitating reviews with Tier 2/Tier 3 Sales Teams and Distributors, optimized stock levels, reducing potential stock-outs. Utilized Kubernetes for scalable deployment and management of data models and analytics tools

BOSCH

New Delhi, India

Business Analyst Intern | Team Management, Decision Analytics, Power BI, MS Excel, Python

July 2022 - September 2022

- Developed and implemented a comprehensive dashboard using Power BI to track key performance indicators (KPIs), which resulted in a 15% improvement in decision-making efficiency and a 10% reduction in operational costs. Conducted in-depth market research and data analysis using data models in R and MS Excel to support strategic business initiatives, leading to a 20% increase in process optimization
-

EXPERIENTIAL LEARNING

Simon Data Analytics Club, Simon Business School

Rochester, New York

Vice President | Strategic Thinking, R, Python, MS Excel, MS PowerPoint, Tableau

August 2023 – Present

- Attained proficiency in Python, R and SQL, analyzing complex datasets for insightful interpretations. Applied theoretical concepts like Statistical analysis, Data Visualization to practical problems through active participation in data analysis projects

Simon Vision Consulting, Simon Business School (Pro-Bono)

Rochester, New York

Senior Consultant | Decision-Making, Team Management, R, Python, MS Excel, Tableau

September 2023- December 2023

- Strategized a comprehensive process optimization project for a major retail client. Using R, Python, and Tableau, developed a predictive model that improved demand forecasting accuracy by over 95%, reduced excess inventory by 30%, cut carrying costs by \$2 million annually, and streamlined procurement processes, reducing logistics costs by 20%. Leveraged advanced artificial intelligence to enhance model precision and utilized strong communication skills to effectively present actionable insights and recommendations to stakeholders
-

EDUCATION

Simon Business School, University of Rochester

Rochester, New York

Master of Science in Business Analytics (A STEM-Certified Program)

July 2023 – May 2024

- Relevant Coursework: Data Analysis and Visualization, Statistical Analysis and Regression, Machine Learning for Business, Predictive Analytics, Data Mining and Big Data, Business Intelligence and Data Warehousing, Pricing Analytics, Financial Analytics, Operations Research, Business Forecasting, Programming Languages (Python, R, SQL). Merit Scholarship Recipient – Class of 2024

Jamia Millia Islamia

New Delhi, India

Bachelor of Engineering and Technology, Mechanical Engineering

August 2019 - May 2023

- Ranked within the top 5 students in the Mechanical Engineering Class of '23, President of SAE Jamia Millia Islamia
-
