Certification in Full Stack Development, 4Geeks Academy 06/2025 – 09/2025

Projects

ResumeRanker, Full Stack Developer [🔗](#)

Project Overview: Developed a full-stack web application that leverages AI integration to help job seekers dynamically customize their resumes for specific positions while providing intelligent career recommendations based on their professional background and skills.

Key Contributions:

- **Architected** the complete project infrastructure by establishing repository structure and implementing CI/CD pipeline using GitHub Actions, ensuring streamlined development workflow and automated deployment processes that enhanced team productivity and code quality
- **Engineered** real-time communication system using Flask-SocketIO and WebSockets to enable instant AI-powered resume analysis and job matching, providing users with immediate feedback and seamless interactive experience during the resume tailoring process
- **Optimized** application performance through comprehensive integration testing, Docker containerization, and continuous monitoring implementation, resulting in improved system reliability and deployment consistency across development and production environments

Professional Experience

Operations Manager/Dispatcher, Perfect Route Enterprise Ltd.co 01/2022 – 05/2024 | Dallas, Texas

Operations Manager/Dispatcher | 2 Years

- Managed daily freight operations for a 2-driver fleet, processing 6-8 shipments daily while using Motive TMS to analyze route performance and reduce transit times.
- Resolved critical operational disruptions, including highway closures, by implementing rapid problem-solving protocols and coordinating real-time communication with drivers, customers, and vendors.
- Managed end-to-end data workflows, from shipment documentation to financial reconciliation, ensuring accurate record-keeping and seamless information flow across all stakeholders.
- Mentored new team members through a structured onboarding process while maintaining clear communication channels to provide customers with regular status updates.
- Maintained service reliability and enhanced client satisfaction by resolving disruptions and providing timely, transparent communication.

Lead Material Handler, Frito Lay Irving, Texas

- Directed all shift operations and managed the team in the supervisor's absence, ensuring seamless workflow and consistent adherence to schedules.
- Utilized SAP software and RF scanner guns to conduct regular inventory audits, rectify discrepancies, and optimize order picking efficiency.
- Operated multiple forklift types, including sit-down and stand-up reach trucks, to execute pallet consolidation and improve storage space and accessibility within the warehouse.
- Trained and mentored new hires on standard operating procedures, forklift operations, and critical warehouse safety protocols.
