EDUCATION

Bachelor's of Science, Computer Science

Azusa Pacific University, Azusa, CA

WORK EXPERIENCE

Product Support Representative II

April 2024 -

UKG (Ultimate Kronos Group) Inc., Santa Ana, CA

- Assigned to special Case Flex team in Q1 2025, based on my performance/metrics, to help reduce the company case backlog. Consistently lead this team in case closures.
- Utilizing **SQL** scripts and other troubleshooting tools to solve technical issues in UKG Pro Payroll/HR software.
- Accepting over 300 calls and closing over 200 cases monthly within **Salesforce Service Cloud**, **Jira**, and **ServiceNow** as well as monitoring CX metrics such as OSAT/ISAT.
- Coordinating with other teams supporting Timekeeping, BI, Talent, Benefits, Integrations, API, Custom Interfaces, Transmissions (NACHA and vendor), Tax, Payment Services, and Implementation aspects of UKG SaaS installations including Google Cloud Platform and dedicated server **Citrix** Workspace environments.

Inventory Control Specialist

November 2023 - March 2024

Fisker Inc., Huntington Beach, CA

- Simultaneously used **Excel** (VLOOKUP, PivotTable, formulas, conditional formatting), **Power BI**, and **SAP S/4HANA ERP** database software to keep accurate counts of \$8 million worth of on-site physical inventory as well as data on PDI, body shop issues, charging status, and location on an interactive map.
- Proactively organized and updated data such as priority VIN numbers, port BOLs, third-party transportation invoices, accessory counts, and Uline supply invoices by using **Office 365**, **SharePoint**, and **Teams**.

General Manager

May 2022 - June 2023

Pick-Up Stix, Glendora, CA

- Increased sales 6% YoY under my lead.
- Focused on keeping labor cost and food cost both under 30% so that the prime cost of the location would be 60% to keep the bottom line profitable, while analyzing **P&L** charts to find vulnerable areas that needed work.
- Operated **NCR** Back Office software, **Excel**, and **Outlook** for weekly forecasting, inventory, and purchasing.

General Manager

July 2017 - October 2021

Wendy's, Glendora, CA

- Won Fast Friday competition for the fastest Speed of Service time (averaging <120 seconds per customer) in SoCal.
- Stayed cognizant of sales goals, cash control, voids, and labor/transactions per man hour with **Aloha POS** terminals.
- Created inventory orders using **SBOnet** Inventory Manager software and **XML** data, did weekly counts of paper, chemical, and food stock, and conducted the hiring, orientation, training, and schedule creation for 30+ employees.

IT Support Technician (Level 2)

January 2015 - May 2016

IMT Repair Center, Azusa, CA

- Performed hardware and software repairs including hard drive and logic board replacements for Mac and PC, data backup/retrieval, OS installs, and virus scans on customers' desktops, laptops, and mobile devices.
- Also aided students, faculty, and the Board of Directors at the diagnosis level (Level 1) in the front office, gave quotes of services and updates on device status over the phone, and updated tickets through **Zendesk**.

Library Technician

September 2014 - December 2014

Duke Library and Stamps Library, Azusa, CA

- Helped patrons with SSO login issues, software, printers, and scanners in the 50+ **Citrix** XenDesktop thin client lab.

Research Software Engineer

July 2013 - September 2013

Computer Science Department, Azusa Pacific University, Azusa, CA

- Studied and researched information related to the topic of "Data Preservation on Sensor Networks" leading to the publishing of a paper by staff on advancements in underwater sensors and decay prevention.
- Coded a **Java** simulation of a sensor network using arrays, node objects, and other relevant functions and studied the effect that search algorithms and my own had on the network, in order to achieve optimal data collection.
