TECHNICAL SKILLS

- **Programming:** Java, JavaScript, TypeScript, SQL, Python
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Hibernate, Angular, React, JUnit, Mockito
- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript, JSON, jQuery
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Messaging & APIs:** RESTful Web Services, Apache Kafka, RabbitMQ
- **Development Tools:** Docker, Git, Swagger, Postman, Maven, Jenkins
- **Methodologies:** Agile, Scrum, SDLC

Professional Experience:

West Virginia State University

Research Assistant

2024 - Present

- Author of cybersecurity research papers focusing on threat detection, mitigation strategies, and security frameworks.
- Co-author of eight research papers to be published through IEEE and Springer Nature.
- Developed models to analyze vulnerabilities in 5G network security and proposed enhanced encryption mechanisms.
- Assisted in writing and reviewing research papers related to network security and penetration testing.

Full Stack Developer

Motivity Labs, Hyderabad

11/2022 - 10/2024

- Developed full-stack applications using Java, Spring Boot, Hibernate, Angular, and React, ensuring scalability and maintainability.
- Designed RESTful APIs with secure authentication (JWT, OAuth), reducing unauthorized access risks.
- Built microservices-based architecture for modular application development, improving system performance.
- Integrated Kafka & RabbitMQ for real-time messaging, enhancing application responsiveness.
- Optimized database queries and indexing in MySQL, MongoDB, reducing query execution time by 30%.
- Developed responsive dashboards and UI components in Angular and React, improving user experience and performance.
- Applied TDD (Test-Driven Development) principles with JUnit and Mockito for robust testing.
- Collaborated with cross-functional teams in Agile (Scrum) environments, ensuring timely feature delivery.

EDUCATION

Master of Science (M.S.) in Computer Science

- West Virginia State University | 2024 – Present

CERTIFICATIONS

- Java & SQL (Basic & Advanced) – HackerRank
- Cybersecurity Analyst – Tata Group (Forage)
- Software Engineering – Goldman Sachs (Forage)
- IBM Security Zero Trust Principles – IBM
- Introduction to Generative AI – Google
