

LAKSHMI BHAVANI DONTINENI

+1 (626) 731 6503 | Los Angeles, CA | bhavanidonthineni93@gmail.com ♦ <https://www.linkedin.com/in/lakshmibhavani-d/>

SUMMARY

Full-stack Software Developer skilled in building scalable web applications using Python, Java, JavaScript, React.js, Node.js, Django, and Flask. Experienced with cloud platforms (AWS, Azure), containerization (Docker, Kubernetes), CI/CD pipelines, database optimization, and system design to enhance performance and reliability.

EDUCATION

MS, Computer Science, California State University, Los Angeles (GPA: 3.5) Aug 2023 – May 2025

Coursework: Advanced Software Engineering, Advanced AI, Topics in Data Science, Database Systems, Web Programming.

BS, Computer Science, KL University (GPA: 3.7) June 2019 – May 2023

EXPERIENCE

Software Developer | Our National Conversation (ONC) Jul 2025 - Present

- Built and deployed full-stack features for a **social media news platform** using **React.js**, **Django**, **Node.js**, and **SQL**, enabling real-time content delivery to end users.
- Designed and tested scalable APIs with **Postman**, improving content sharing reliability, boosting user satisfaction by **10%**, and reducing integration issues by **25%**.

Software Developer | Palo Alto Networks Aug 2022 - July 2023

- Developed clean, efficient **Python** code, reducing production bugs by **15%** and improving maintainability.
- Collaborated in Agile workflows (stand-ups, sprint planning, code reviews), accelerating feature delivery across teams.
- Designed and implemented new features for **internal automation/monitoring tools** and **customer-facing applications**, enhancing usability.
- Leveraged **Git** and **Jira** to streamline workflows, increasing team productivity by 15%.

ACADEMIC PROJECTS

Meal Planner Application (Node.js, Express.js, MongoDB, Svelte.js)

- Developed a full-stack meal planning app with recipe selection, shopping lists, and nutrition tracking, streamlining preparation.
- Built a scalable back-end and responsive front-end, ensuring fast performance and cross-device usability.

Enterprise Resource Planning (@University ERP) (Spring/Spring Boot and Java Technologies)

- Built ERP with Admin, Faculty, and Student modules for 100+ users, automating record/grade workflows.
- Designed dashboards for quizzes, attendance, and grades, improving transparency and usability.

Fashion Design System (Django/Flask)

- Built e-commerce platform with 100+ products, advanced search/filters, secure payments, and order tracking.
- Optimized queries and caching to handle 100+ concurrent users, ensuring high performance and scalability.

SKILLS

Programming: Python, Java, JavaScript, TypeScript

Web & Frameworks: React.js, Vue.js, Node.js, Express.js, Spring Boot, Django, Flask, HTML, CSS, REST APIs, GraphQL.

Databases: MySQL, PostgreSQL, SQL Server, SQL Optimization, NoSQL, MongoDB, Redis, Cassandra

Cloud & DevOps: Azure, AWS, AWS Lambda, Docker, Kubernetes, Jenkins, CI/CD Pipelines, Git & Github, JUnit

Core CS: Data Structures & Algorithms, OOPs, Design Patterns, Problem Solving, System Design(Microservices, Load Balancing, High Availability)

Soft Skills: Communication, Collaboration, Leadership, Adaptability, Critical thinking.

CERTIFICATES

- Microsoft Azure Developer Associate
- Microsoft Azure DevOps Engineer
