Professional Summary

Human-Centered Designer with nearly 4 years of experience creating intuitive, accessible digital experiences across web and mobile. Skilled in UX research, interface design, and front-end development using core web technologies. Adept at collaborating with engineers to translate design concepts into responsive, production-ready interfaces. Passionate about building scalable design systems and bridging the gap between design and development for seamless user experiences.

Experience

Vosyn Jul 2025–Present
UX Designer Intern [Remote]

- Conducted in-person and remote usability tests to identify **communication workflow inefficiencies**.
- Designed and iterated **high-fidelity wireframes and prototypes in Figma** based on research insights.
- Led a team of **5 UX interns** in designing a **generative AI-powered communication platform**.
- Implemented **WCAG-compliant interfaces**, enhancing accessibility across all platforms.

The House of Eli Jun 2024 – Feb 2025
UX Research & Design Miami, FL

- Led **30+ user interviews and usability tests**, improving navigation clarity by **25%**.
- Facilitated on-site research for an **AI-driven virtual try-on mirror**, collaborating with fashion designers and models.
- Created **wireframes, prototypes, and storyboards in Figma**, aligning insights with business goals.
- Maintained a professional, empathetic rapport with participants during live studies and demos.

Prowess Enterprise (India) Pvt. Ltd. Aug 2019 – Jul 2022
UI/UX Designer Visakhapatnam, India

- Moderated **100+ user research sessions**, uncovering key insights that informed product roadmaps.
- Designed **15+ client projects** across web and mobile, improving usability and raising CSAT by **30%**.
- Built a **centralized design system**, reducing design-development handoff issues by **35%**.
- Collaborated with engineers on **API-integrated workflows**, improving task completion speed by **20%**.
- Presented research findings and prototypes to executives, securing approvals for multiple high-impact projects.

Skills

Research & Testing: Usability testing, A / B testing, User interviews, Document writing and presentations, Contextual Inquiry, Surveys, Diary Studies, Card Sorting, Cognitive Walkthrough, Affinity Mapping, Heuristic Evaluation.

Moderation & Facilitation: In-person 1:1 Research Sessions, Participant Training, Device Testing, Data Documentation, Empathy-driven Communication

UX & Product Design: UX strategy, Design Thinking, empathy mapping, rapid prototyping, translating business use cases into design, user flows, wireframing, journey mapping, personas, storyboarding, visual and motion design

Tools & Technologies: AI design tools, Figma, Google suite, InVision, FigJam, Framer, Miro, Visual studio code, Optimal Workshop, C#, HTML5, CSS3, JavaScript, TypeScript, Vue.js, SQL Queries ,UI Performance Optimization, R Studio

Projects

Lifestyle Productivity Platform | Founder, Pre-Seed Stage

- Conceptualized and prototyped a lifestyle app that tracks and verifies daily household tasks, turning invisible effort into measurable growth. Accepted into the Founder Institute, validating the product through user research and mentorship.

Home Security UX Research

- Explored scenario-based learning methods to optimize security device placement (Fire alarm, CO₂ sensor, and security camera); conducted usability tests and walk-throughs, analyzed data, and designed the user interface.

Secure ATM via Biometrics & Gestures

- Led user research on banking experience pain points and designed a humanoid ATM interface with biometric and gesture-based authentication; validated usability and security improvements through user testing and statistical analysis

Education

Florida Institute of Technology Aug 2022 – Dec 2024
M.S. in Human Centered Design Melbourne, FL

Jawaharlal Nehru Technological University Jun 2017 – Jul 2021
B.Tech in Information Technology Hyderabad, India
