

Leissa Cazeau, BS

Clinical Research & Public Health Professional
San Francisco | (415) 916-2332 | lcazeau48@gmail.com |

Professional Summary

Independently driven and detail-oriented professional with over 5 years of experience optimizing clinical workflows, managing healthcare data, and collaborating cross-functionally to improve patient outcomes. Proven track record in care coordination, provider support, and process enhancement using data tools. Adept at turning performance data into actionable insights to drive continuous improvement. Strong communicator with a background in public health, clinical research, and infectious disease. Passionate about delivering high-quality care experiences through collaboration, innovation, and humility.

Professional Skill

- Clinical Workflow Optimization
- Provider Support & Care Coordination
- Healthcare Performance Data Analysis
- Communication, Teamwork, and Strategic Thinking
- Regulatory Compliance
- Public Health Informatics
- Good Clinical Practice (GCP)

Professional Experience

Clinical Laboratory Associate II | *Natera, San Carlos* | March 2023-Present |

- Supported process improvement, compliance initiatives, optimizing laboratory workflows and documenting best practices in alignment with quality standards.
- Supported regulatory documentation, data sharing, and operational reporting through cross-team collaboration.
- Partnered with cross-functional teams to inform decisions with evidence-based recommendations.

Infectious Disease Data Manager | *Florida Health Department, Tallahassee* | January 2022 – February 2023

- Monitored care coordination and provider compliance with CDC protocols through real-time surveillance dashboards.
- Identified gaps in workflow efficiency, implemented improvements in disease tracking and case management.
- Transformed large datasets into actionable public health insights; collaborated with providers and analysts to ensure high-quality reporting and follow-up.
- Delivered training and technical assistance to public health teams to ensure protocol alignment and timely communication.

Case Investigator | *AMLLC, Remote* | November 2021-Mar 2022 |

- Served as a provider support contact by managing outreach, gathering feedback, and ensuring protocol adherence.
- Investigated and documented care workflows during outbreaks to inform updates to communication and provider guidance content.
- Analyzed contact tracing and case management data to improve public health response strategy and coordination.

Patient Care Technician | *HCA Healthcare* | Tallahassee, Florida Jul 2021–Dec 2021

- Supported patient intake, clinical documentation, and care coordination in a fast-paced hospital setting.
- Worked directly with providers and nurses to ensure streamlined patient support and efficient workflow handoffs.

Education

Benedictine University — Master of Public Health, Epidemiology
Florida State University — B.S. Public Health, Public Administration
