EDUCATION

DePaul University, Jarvis College of Computing and Digital Media

B.S Computer Science

Concentration: Game Systems

GPA: 3.7/4.0

June 2022

Chicago, IL

EXPERIENCE

PINWRK (startup)

September 2021 – November 2024

Lead Software Developer

Chicago, IL

- Collaborated with user research and business development to identify and prioritize customer main points and lead the development of PINWRK mobile applications (Android and iOS).
- Researched and Implemented payment systems for PINWRK and PINWRK PRO applications using Stripe APIs.
- Designed a mobile application database architecture using PostgreSQL and Firebase.
- Implemented a messaging feature using a NoSQL database to store and query user message data.
- Designed over ninety APIs to support PINWRK features using Node.js.
- Implemented the front-end UI using Flutter and Dart.

DePaul Innovation Development Lab

January 2021 – June 2022, August 2024 – September 2024

Software Engineer

Chicago, IL

- Consulted with clients to conceptualize innovation that supported new product releases.
- Conducted code review for clients to provide feedback on back-end system design.
- Developed a prototype to verify that a (client's) concept could be developed using a gaming engine.
- Designed a game concept for client which included providing input on game design, mechanics, and art.
- Developed the front-end of the ODI 2024 website using React.
- Deployed the ODI 2024 website live.
- Fixed an issue with the CSS files of the iD Lab website.

PROJECTS

Escape From Kindergarten

January 2022 – June 2022

Senior Capstone Project

Chicago, IL

- Worked with a team of 6 to develop a platform game using Unreal Engine 4 in 20 weeks.
- Developed the block system for the game using Unreal Blueprint.
- Collaborated with the lead designer to design the blocks that the players used.

TECHNICAL SKILLS

Agile, CSS, HTML, React, Java, Python, PostgreSQL, Git, C#, C++, JavaScript, Flutter, Dart, Node.js, Unreal Engine 4, Unity

RELEVANT COURSEWORK

Computer Science: Computer Systems, Data Structures, Database Systems, Design/Analysis/Algorithms, Discrete Mathematics, Optimized C++, Program Language Concepts.

Game Systems: AI for Computer Games, Applied 3D Geometry, Game Engine Programming, Object-Oriented Game Development, Real-Time Networking, Rendering/Graphics Programming.

HONORS & ACTIVITIES

DeSports Tech Partnership with CPS

January 2021 – March 2021

- Mentored CPS students who wanted to learn more about ESports.

Google Developer Student Clubs

January 2019 - June 2022

- Used Google technologies to develop various solutions when participating in hackathons.
