Professional Experience

WALMART CONNECT | REMOTE | MAY 2022 TO SEP 2024

SR. BUSINESS INTELLIGENCE ANALYST-SALES STRATEGY

- Engineered a highly confidential Power BI dashboard showcasing the entire employee database; reduced Salesforce license costs while providing crucial insights on attrition, management structure, and hiring trends to senior leaders who report directly to the CEO.
- Revolutionized WBRs by replacing cumbersome Excel files and manual PowerPoint creation with a Power BI dashboard; condensed complex data into real-time, actionable insights, saving analysts hours weekly and accelerating data-driven decision-making for leadership.
- Pioneered a dashboard tracking performance of all salespeople; enabling sales teams to understand their key metrics and empowering the Sales Strategy team to identify top performers and replicate successful tactics across teams. Enabled data-driven decisions from individual salespeople to executive leadership, enhancing overall sales effectiveness.

DRIVE MANUAL ATX | AUSTIN, TX | MAY 2023 TO PRESENT

OWNER

- Spearheaded the creation and growth of a manual transmission driver education school, achieving dozens of five-star reviews and establishing a strong reputation in the Austin community.
- Designed and implemented promotional offers and partnerships with local businesses, leading to a substantial increase in brand recognition and customer engagement.
- Utilized exceptional teaching skills and customer service expertise to deliver high-quality instruction and ensure outstanding student satisfaction.

NASA-JOHNSON SPACE CENTER, HOUSTON, TX, MAY 2021 TO AUGUST 2021

LUNAR TERRAIN VEHICLE PROCUREMENT INTERN

- Evaluated complex proposals for Lunar Terrain Vehicle (LTV) program; engaged in critical discussions within NASA to assess contractor suitability, driving consensus on a multi-billion-dollar contract.
- Engaged directly with engineers, analysts, and executives from industry giants (GM, Lockheed Martin, Boeing, etc.) for the LTV; led strategic discussions with these companies to evaluate capabilities, align goals, and identify the optimal partner for NASA's mission requirements.

NASA-JOHNSON SPACE CENTER, HOUSTON, TX, MAY 2021 TO AUGUST 2021

PROGRAM ANALYST INTERN

- Developed a SharePoint-based internal website at NASA, streamlining contractor spend reporting; facilitated seamless communication among hundreds of team members, resulting in improved financial oversight and collaboration.
- Pioneered an automated Excel-to-PowerPoint system, consolidating multiple files; slashed data retrieval times, minimized human error, and optimized data management processes, enhancing overall reporting efficiency.

BP, CHICAGO, IL, MAY 2020 TO AUGUST 2020

SALES AND TRADING INTERN

- Transformed complex daily P&L data from the trading floor into actionable insights by designing a Power BI dashboard, reducing reliance on cumbersome Excel files and enabling senior leadership to make informed decisions.
- Streamlined the weekly region review by leveraging VBA and Task Manager in Excel, automating data organization and reducing report creation time by over 50%, allowing for more strategic focus and increased productivity.
