mattcrachal@gmail.com | 713-569-7810 | <https://matthewrachal.com> | <https://github.com/MatthewRachal>

*Strategic problem-solver with a background in entrepreneurship, finance, & software. I combine analytics with hands-on execution to translate challenges into actionable strategies.*

## EDUCATION

---

**B.S. in Aeronautical & Astronautical Engineering, Purdue University**

2011-2015

## EXPERIENCE

---

**Entrepreneur & Software Developer, SaaS Business (Validation Phase)**

2023-Present

Independently designed and developed a pre-launch SaaS platform focused on analytics for consumers and enterprise.

- **Market Research:** Analyzed market size, competitors, growth potential, and pricing to inform product positioning, differentiation, and go-to-market (GTM) strategy.
- **Customer Insights:** Synthesized prospective customer feedback to refine product strategy, validate market assumptions, and prioritize high-impact use cases.
- **Product Strategy & Roadmap:** Owned full-stack software programming and data analysis while defining product vision, feature roadmap, and KPIs to align technical execution with business outcomes.
- **Scenario Modeling & KPIs:** Built financial and adoption models to evaluate revenue growth and cost structure.

**Software Developer, Sessions (Music Tech Startup) & Independent Projects**

2020-2023

Worked in software development at a former 70+ employee and 10+ developer consumer music tech startup and created independent software projects as part of a broader career transition post finance.

- **Software Development:** Designed, programmed, and deployed new cloud services with AWS and Node.js and programmed frontend and backend systems and features while working with cross-functional teams.
- **Independent Projects:** Created multiple large-scale applications and designs outside of my time at Sessions.

**Equity Research Associate, Morgan Stanley**

2018-2020

Conducted in-depth financial analysis, modeling, and equity valuations across commercial aerospace, defense, lessors, and airlines in collaboration with stakeholders in trading, sales, and institutional investors.

- **Financial Analysis:** Created financial models and analyzed metrics and data across various equities.
- **Delivered Key Insights:** Developed forecasts and other analysis to analyze broader market dynamics.
- **Data Driven Research:** Built and maintained financial models, pricing estimates, and key performance indicators (KPIs) to conduct research with deep data analysis.
- **Stakeholder Reporting:** Delivered insights to portfolio managers through calls, client meetings, and research.

**Equity Research Associate, Stifel Financial**

2016-2018

Covered US airlines and analyzed domestic and global aviation trends across various business operations.

- **Competitive Analysis:** Built a competitive capacity model to forecast revenue performance based on pricing, competition & supply, and other metrics.
- **Strategic Outlooks:** Created strategic outlooks and risk assessments used by portfolio managers.

**Revenue Management Analyst, American Airlines**

2015-2016

Managed pricing and capacity strategies and forecasts across key domestic routes with various analysis and data tools.
