

Michael Hoellen

Data Analyst

+(1) 402-216-1452 | Seattle, Washington | mike.hoellen@gmail.com

Analytical and detail-oriented Data Analyst with over four years of experience in transforming complex data into actionable insights. Proficient in leveraging SQL, Python, R, and Tableau, with a strong foundation in mathematics and computer science. Demonstrated ability to drive data-informed decisions and improve operational efficiency. Committed to continuous learning and innovative solutions to complex problems.

SKILLS

- **Programming Languages:**
Python (Pandas), R, SQL
- **Data Visualization:**
Tableau, PowerBI
- **Database Management:**
MySQL, PostgreSQL
- **Other Tools:**
Excel, Git

Professional Experience

Data Analyst at Biscred, March 2022 – April 2025

- Developed and maintained dashboards to monitor vital performance indicators to inform key decision makers. Examples include platform usage to drive customer retention, sales call data to identify ideal customers for ad targeting, and data fill rates across our data sets.
- Utilized SQL and Python to extract, clean, and analyze large datasets for various projects and requests from clients.
- Collaborated with cross-functional teams to identify data-driven solutions for business problems.
- Automated reporting processes, reducing manual workload across several departments.

Junior Data Analyst at NTT Data, Jan 2018 – Jan 2019

- Assisted in the development of data models and reports to support business operations.
- Conducted data quality assessments and implemented data cleansing procedures, improving data accuracy.
- Supported senior analysts in the analysis of customer trends to provide playbooks for management.

EDUCATION

University of Nebraska – Lincoln 2021

Bachelor of Arts and Science in Mathematics and Physics

Minor: Computer Science
