Summary:

Detail-oriented and analytical Data Analyst with 3+ years of experience extracting, transforming, and analyzing large datasets to support business decision-making. Proficient in Python (Pandas, Numpy), SQL, SQL Server, and Advanced Excel, with hands-on expertise in data cleaning, validation, reporting, and visualization. Adept at collaborating with cross-functional stakeholders, presenting insights clearly, and optimizing workflows through automation. Skilled in Power BI and Tableau for developing dashboards and reporting solutions.

Skills:

- **Programming & Data Analysis:** Python (Pandas, NumPy, Polars), Matplotlib, Seaborn, Six sigma, MATLAB, Html, CSS, R
- **Database & Tools:** SQL Server, MySQL, SQL (T-SQL, Joins, CTEs, Stored Procedures), Snowflake, Microsoft Excel (Pivot Tables, VLOOKUP, Macros), Tableau, Power BI, SAP, Business Objects
- **Reporting & Visualization:** Dashboard Development, Trend Analysis, Forecasting, Statistical Problem-Solving
- **Methodologies & Cloud Technologies:** SDLC, Agile (Scrum, Kanban), Waterfall, AWS, Azure
- **IDEs:** Visual Studio Code, Jupyter Notebook, Spyder
- **Operating Systems, Version Control & Project Management Tool:** Windows, Linux, Git, Jira
- **Other Skills:** Data Cleaning, Data Transformation, Data Profiling, Critical Thinking, Stakeholder Engagement, Cross-Functional Teamwork, Requirements Gathering, communication Skills, Presentation Skills, Decision Support

Certifications:

- Azure Fundamentals
- AWS Certified Developer - Associate

Education:

Master of Science – Computer Science

University of Central Missouri | Aug 2024

Bachelor of Technology – Electronics & Communication Engineering

Jawaharlal Nehru Technological University(JNTUK) | May 2021

Experience:

Walgreens

Deerfield, MA

Data Analyst

June 2024- July 2025

- Analyzed pharmacy and retail loyalty data using SQL and Python to track prescription refill adherence across 500+ Walgreens stores, identifying patterns by demographics, drug class, and region.
- Designed interactive Power BI dashboards to monitor adherence KPIs, store-level performance, and geographic risk hotspots, supporting data-driven decision-making by pharmacy leadership.
- Delivered insights that led to a 12% improvement in refill adherence, 8% reduction in wasted prescriptions, and \$5M increase in annual revenue across pilot regions.
- Partnered with cross-functional teams to recommend process improvements including optimized staffing at peak hours and patient outreach strategies, enhancing both customer experience and operational efficiency.

Wipro Limited

Bengaluru

Data Analyst

Aug 2021-Dec 2022

- Developed technical solutions for automated reporting workflows, reducing manual reporting time by 25%. Partnered with cross-functional teams to communicate and collaborate on requirements for campaign analysis and performance dashboards.
- Utilized best practices in SQL, Excel, and BI tools to deliver actionable insights that supported customer service improvements.
- Validated high-volume campaign and web data, ensuring accuracy, consistency, and attention to detail in all reporting deliverables.
- Integrated campaign performance data with HTTP-based APIs for real-time reporting and monitoring.
- Partnered with cross-functional teams to identify process inefficiencies and implement Lean Six Sigma improvements.

- Conducted operational and financial analysis using MS Excel and SQL queries, producing written documentation of workflows and performance metrics.
- Collaborated with stakeholders to define KPIs, uncover gaps, and drive improvements with strict attention to detail.
- Supported discovery and legal reporting needs by extracting and validating datasets across multiple systems.
- Created pipelines for structured datasets to improve reporting efficiency and enhance technical accuracy.
- Applied industry best practices to maintain compliance, improve processes, and enhance customer service outcomes.
