An aspiring software engineer, data analyst or data scientist with internship experience in publishing, healthcare, and financial companies. Some of my strengths include strong problem-solving skills, creativity, and insightfulness. Looking for a full-time position that is both meaningful and interesting.

EDUCATION

MBA, Georgia Southwestern State University, December 2023 GPA 4.0

M.S., Mathematics, The City College of New York, June 2020 GPA: 3.14

M.S., Computer Science, University of Illinois at Urbana-Champaign, June 2019 GPA: 3.38

B.S., Applied Mathematics, The City College of New York, June 2016 GPA: 3.68

RELEVANT COURSEWORK

Statistics, Stochastic Processes, Natural Language Processing, Data Mining, Data Analysis, Machine Learning

QUALIFICATIONS

Key Skills: Problem-solving, pattern recognition, analytical capabilities

Core Qualities: Professional, creative, patient, responsible, articulate, analytical, team player

Technical Skills: Java, Python, Matlab, R, SAS, Unix, HTML, SQL, Github, Tableau, Ruby

PROJECTS

Side Effects of Common Psychiatric Medication, Capstone Project for Spring 2019: Used data mining techniques to compare the side effects of antidepressants, anxiolytics, mood stabilizers, and antipsychotic.

EXPERIENCE

Mandarin Interpreter, LanguageLine Solutions, Remote 06/2023-present

- Currently attending training for interpretation in insurance, finance, and healthcare industries.
- Learning to use different protocols to follow according to ad hoc scenarios.

Developer/Data Engineer/Data Scientist, Tata Consultancy Services, NY, NY 8/20-05/23

- Did projects on machine learning, data visualization, and neural network.
- Performed GANs (Generative Adversarial Network) for single-family loan service dataset.
- Performed DDLs and DMLs in SQL and used PySpark and Python for databases.
- Executed jobs in Databricks.
- Created pipelines for data ingestion.
- Performed enhancement tasks in EtQ reliance, an online platform for quality management.

Java Programming Trainee, FDM Academy New York, NY 2/2020-5/2020

- Completed intermediate and advanced projects in the Java language.

Data Science Intern, GTS, Pfizer, INC., New York, NY 6/2018-8/2018

- Used Tableau for dashboards and slides to identify patterns for PfizerVoice where employees submit their feedback regarding the leadership team.
- Incorporated data visualization techniques to facilitate user-data interaction.

Quantitative Intern, Trading Department, Data Capital Management, LLC., New York, NY

7/2017-8/2017

- Used Python and SQL to replicate graphs and results from the Ravenpack articles. ● Used linear regression to determine the relationship between positive/negative/neutral sentiment data and the stock returns.
- Found the optimum combinations of sentiment news data indices that resulted in the maximum profit gained.

Digital Production Intern, Digital Production, Triumph Learning, New York, NY 6/2016-8/2016

- Transferred, exported, imported, maintained, and modified data in the Content Management System.
- Used Excel functions to generate question databases in CSV or HTML and uploaded the creative contents to an online platform for students and teachers to gain access to the printed information online.

AFFILIATIONS

Member, Sigma Alpha Pi (National Society of Leadership and Success), 2015-Present

Secretary Assistant, Science Activities Club, City College, 2014-2016
