Washington D.C.

SUMMARY

Senior Business Analyst with over 6 years of experience delivering complex, web-based IT solutions for government and private-sector clients. Expert in eliciting and translating business needs into detailed user stories, prototypes, and functional requirements. Skilled in backlog grooming, Agile ceremonies, SDLC documentation, stakeholder communication, and solution delivery. Strong communicator with a proven ability to bridge the gap between business needs and technical implementation.

TECHNICAL SKILLS

Tools: Jira, SharePoint, Visio, Snagit, Power BI, MS Teams, PowerPoint, Excel, SQL Server, Azure DevOps

Methodologies: Agile (Scrum, SAFe), Waterfall, SDLC, UAT, Change Management, Business Process Modeling

WORK EXPERIENCE

SENIOR BUSINESS ANALYST (REMOTE)

REI Systems, Sterling, VA

(June 2022 - April 2025)

Client: Health Resources and Services Administration (HRSA)

- **Client & Stakeholder Management:** Led weekly client meetings, follow-ups, prioritize backlogs, and align deliverables with client goals and manage ongoing requirements and feedback aligning goal with cross-functional team collaboration by working closely with SMEs and delivery leads.
- **Project Coordination & Agile Delivery:** Owned product backlog, wrote user stories in Given-when-then format, facilitate pre-client prep, daily stand-ups, sprint planning, Jira tracking; ensure team readiness and document testing outcomes for each release. Led bi-weekly sprint demos showcasing feature delivery and aligned with evolving business goals.
- **Requirements & Documentation:** Gather and refine business requirements, detailed meeting minutes, capture and follow up on action items, create BRDs, UI mockups, Visio flows, and maintain documentation including DRRs, ORRs, release notes, and maintained stakeholder wikis, documentation libraries, and video walkthroughs for knowledge continuity.
- **UAT Coordination & Triage:** Organized and led UAT cycles: defined test scenarios, documented issues, and tracked defects to closure. Conducted BA validation tasks, served as liaison between users and QA teams, clarifying requirements and expected outcomes. Reported testing progress, risk areas, and issue resolution timelines to project leads and stakeholders. Coordinated with Dev, QA, and Product teams to ensure proper refinement and acceptance criteria.
- **Process Modeling & Solution Design:** Created wireframes, system architecture diagrams, and concepts of operations documents. Analyzed existing workflows to identify process improvements and modernization opportunities. Presented solution alternatives and facilitated decision-making discussions to minimize scope creep.
- **Reporting & Risk Oversight:** Compile weekly and quarterly reports, track risks and QASP metrics, manage CPAR submissions, and present project insights and milestones to leadership.

BUSINESS ANALYST (REMOTE)

EZ Corp, Austin, TX

(July 2021 - June 2022)

- **Requirements Gathering & Analysis:** Collected, documented, and refined business and functional requirements through stakeholder interviews, documentation reviews, and feedback sessions. Conducted walkthroughs with technical teams to assess feasibility and clarify implementation options. Facilitated follow-up walkthroughs with primary stakeholders to explain constraints, present solution alternatives, and ensure business alignment. Created BRDs, functional specifications, UI mockups, and Visio process flows to support end-to-end delivery.
- **Stakeholder Communication & Collaboration:** Managed client and stakeholder expectations through structured meetings, clear documentation, and ongoing feedback loops. Delivered presentations to executive leadership, outlining risks, project updates, and solution recommendations. Recognized for excellent interpersonal and communication skills, ensuring smooth cross-functional collaboration.
- **Waterfall Project Delivery:** Led business analysis efforts in projects following Waterfall methodologies, with a strong focus on phase-based execution and documentation traceability. Collaborated with IT, PMs, and business users to ensure timely and structured delivery of releases and change requests. Supported the full SDLC, from planning and requirements gathering to deployment and post-release evaluation.
- **Technical & Vendor Integration:** Acted as a liaison between business and IT teams to translate complex requirements into technical specifications. Worked closely with vendors, including GSM (Gun Store Master), to document and integrate Point of Sale (POS) system APIs. Analyzed technical limitations and trade-offs, presenting viable solutions to business stakeholders for decision-making.

- **Training & Documentation:** Created comprehensive user guides and conducted training sessions to onboard business users on new systems and processes. Supported change management by providing detailed documentation and communication during transitions.
- **Offshore Coordination & Issue Resolution:** Led daily stand-ups with offshore QA and development teams (Guatemala), ensuring effective communication and on-time delivery. Monitored issue resolution, tracked progress, and facilitated alignment across time zones and teams.

BUSINESS ANALYST (ON-SITE)

(May 2018 - May 2020)

District of Columbia Water and Sewer Authority, Washington, D.C.

- **Requirements Gathering & Documentation:** Led interviews, workshops, and task analysis to gather and validate business and functional requirements; developed BRDs, user guides, and change request documentation.
- **System & UX Enhancements:** Partnered on SharePoint and Maximo upgrades, improving UX and integrating visuals like Visio diagrams; contributed to Open Data and GIS system migrations.
- **Testing & Implementation Support:** Conducted manual/automated testing and UAT for SharePoint migrations and mobile apps; supported Maximo and Power BI implementations through detailed testing and user documentation.
- **Stakeholder Engagement & Reporting:** Facilitated weekly cross-team meetings, tracked risks and progress, delivered Power BI reports, and maintained ongoing communication with internal and external stakeholders.
- **Training & Resource Coordination:** Created training materials, conducted staff training on SharePoint and Power BI, and managed resource allocation across departments using CA PPM/Clarity.

EDUCATION

BACHELOR DEGREE IN COMPUTER SCIENCE

(May 2014 - May 2018)

Virginia International University
