

NAGACHANDRIKA

Senior Data Analyst | Email: nagachandrikada@gmail.com | +1 8064291919

Professional Summary

Results-driven **Data Analyst with 3+ years of experience** delivering scalable analytics solutions across **financial services, healthcare, and enterprise technology environments**. Proven expertise in **A/B testing, statistical analysis, predictive modeling, and customer behavior analytics** using **Python, SQL, and modern cloud-based data platforms**. Skilled in designing **ETL pipelines, dimensional data models, and data warehouse solutions** using **Snowflake, dbt, Airflow, and Azure** to support large-scale business intelligence workflows. Experienced in developing **interactive dashboards and KPI reporting solutions** using **Tableau, Power BI, and Looker** to drive executive-level decision-making. Strong background in **data governance, HIPAA-compliant workflows, and data quality validation**, with demonstrated success improving operational efficiency, customer engagement, and reporting accuracy across cross-functional teams.

Technical Skills

Programming Languages: Python (Pandas, NumPy, Scikit-learn), SQL (Advanced Queries, Joins, Window Functions, CTEs)

Data Analysis & Statistics: A/B Testing (Bayesian & Frequentist), Hypothesis Testing, Regression Analysis, Time-Series Forecasting, Statistical Power Analysis

Data Engineering & ETL: Apache Airflow, dbt, Fivetran, ETL/ELT Pipeline Development, Data Integration, Batch Processing

Databases & Warehousing: Snowflake, PostgreSQL, MySQL, Dimensional Modeling, Star Schema, Data Warehouse Design

Data Visualization & BI: Tableau, Power BI, Looker Studio, KPI Dashboards, Data Storytelling

Cloud Platforms: Microsoft Azure (Azure Data Lake, Cloud Storage), Cloud-Based Data Processing

DevOps & Version Control: Git, Jenkins, CI/CD Pipelines, Automated Deployment Workflows

Data Governance & Domain Expertise: Data Quality Validation, HIPAA Compliance, Customer Analytics, Healthcare Analytics, Risk Analytics.

Professional Experience

Data Analyst | JPMorgan Chase | Ohio, USA | Aug 2024 – Present

- Designed and analyzed **30+ large-scale A/B experiments** using Bayesian and Frequentist statistical methods to evaluate customer engagement strategies, improving campaign performance and conversion metrics.
- Developed an **enterprise-level Voice of Customer (VoC) analytics pipeline** integrating Qualtrics surveys, mobile app feedback, and social sentiment sources, reducing insight turnaround time by **40%**.
- Built **customer behavior forecasting models** in Python using time-series methods to predict campaign performance trends and support data-driven marketing planning.
- Automated production-grade **ETL workflows using Airflow, dbt, and Fivetran**, improving data reliability and reducing analytics delivery latency.
- Designed **interactive Tableau dashboards** tracking campaign KPIs, customer engagement metrics, and retention trends for executive stakeholders.
- Led **data quality validation and QA testing** for experimentation dashboards, ensuring reporting accuracy and governance compliance.
- Conducted **statistical power analysis and sample size calculations**, enabling faster and more reliable experiment launches.
- Collaborated with **Marketing, Product, and Risk Analytics teams** to deliver insights that improved customer retention and campaign effectiveness.
- Mentored junior analysts and supported onboarding activities, improving team productivity and knowledge transfer.

Data Analyst | United Health Group | Ohio, USA | Dec 2023 – Jul 2024

- Engineered predictive forecasting models to anticipate healthcare service demand, optimizing operational resource utilization by **17–20%**.
- Spearheaded statistical **A/B testing** initiatives to evaluate digital patient engagement strategies, driving data-informed improvements in user retention.
- Orchestrated automated **ETL pipelines** integrating complex clinical datasets into **Snowflake** and **Azure** cloud environments.
- Instituted **HIPAA-compliant** data governance frameworks and workflows, ensuring 100% security and regulatory compliance for sensitive healthcare information.
- Performed advanced data wrangling and transformation using **SQL** and **Python** to maintain high-integrity, large-scale datasets.
- Architected interactive **Tableau** and **Looker** dashboards to track patient satisfaction and critical healthcare performance metrics (KPIs).
- Led comprehensive **QA validation** protocols for executive dashboards, reducing reporting defects by **28%** and improving data reliability.

- Partnered with clinical stakeholders to analyze engagement trends, successfully improving patient engagement metrics by **15%**.

Junior Data Analyst | Cognizant | Hyderabad, India | Jan 2022 – Jul 2023

- Built robust **SQL-based ETL pipelines** to integrate transactional and survey datasets into centralized **Snowflake** data platforms using **dbt**
- Optimized complex SQL queries, successfully reducing execution time by **25%** and improving overall system performance.
- Orchestrated data migration initiatives, transitioning legacy reporting workflows to modern cloud-based environments.
- Developed **Power BI** dashboards to visualize financial KPIs and operational metrics, significantly enhancing internal reporting efficiency.
- Collaborated with senior analysts to validate data accuracy and refine reporting processes for enterprise-level decision-making.
- Engineered **Python** scripts for anomaly detection to identify irregular patterns and outliers within large financial datasets.
- Executed **A/B testing analysis** for internal workflow optimization projects, identifying key opportunities for performance improvement.
- Maintained **CI/CD pipelines** using **Jenkins and Git**, supporting automated BI deployment workflows and ensuring consistent delivery cycles.

Education

Master of Science in Software and Security Engineering | Texas Tech University, USA

Certifications

Google: - Google Data Analytics Professional Certificate.

Tableau: - Tableau Desktop Specialist Certification.

Amazon Web Services: - AWS Certified Cloud Practitioner.
