PROFESSIONAL SUMMARY

Highly skilled Java Full Stack Developer with 5+ years of experience designing, developing, and deploying scalable enterprise applications for digital banking and global technology platforms. Proven expertise in Java, Spring Boot, Angular, and React, along with microservices, REST/GraphQL APIs, cloud-native solutions (Azure & AWS), CI/CD, and test automation. Adept at collaborating with cross-functional teams to deliver high-quality software using Agile methodologies. Strong problem-solver with excellent communication skills, committed to building performant and maintainable full-stack systems that drive business value.

TECHNICAL SKILLS

Languages: Java 8/11/17, Kotlin, JavaScript, TypeScript

Backend: Spring Boot, Spring Cloud, Microservices, Hibernate/JPA

Frontend: Angular (13+), React.js (16+), HTML5, CSS3, Bootstrap, Material UI

APIs & Integration: REST, GraphQL (DGS), gRPC, JSON, XML

Datastores: PostgreSQL, MySQL, MongoDB, Redis

Cloud Platforms: Microsoft Azure, AWS (EC2, S3, Lambda)

DevOps / CI-CD: Jenkins, GitHub Actions, Azure DevOps, Docker, Kubernetes

Testing & QA: JUnit, Mockito, Karate, Cypress, JMeter

Version Control: Git (GitHub, Bitbucket)

Tools & Platforms: VS Code, IntelliJ IDEA, SonarQube, Jira, Confluence

Architecture / Patterns: Domain-Driven Design, Event-Driven Architecture, CQRS

PROFESSIONAL EXPERIENCE

Client: Goldman Sachs, USA

Jul 2023 – Present

Java Full Stack Developer

- Designed and implemented scalable microservices architecture using Spring Boot (Java 17) and Kotlin for core banking functionalities, including Accounts, Transactions, Money Movement, and Document processing.
- Built and maintained REST APIs and GraphQL APIs (DGS framework) to enable seamless communication between frontend and backend services.
- Collaborated closely with UI/UX teams to integrate with Angular 13+ applications, delivering responsive and modular front-end solutions.
- Integrated with third-party systems (FIS core banking, Okta SSO, Wildfire risk services, Giact identity verification, Cedar claims, N-Gage fraud analytics) using gRPC and secure API communication.
- Implemented Redis caching and cookie-based session management to optimize performance and user experience.
- Containerized applications using Docker, deployed to Azure Kubernetes Service (AKS) with automated CI/CD pipelines (Azure DevOps).
- Enhanced application quality through automated API testing with Karate and performance/load testing with JMeter.
- Participated in Agile planning, daily stand-ups, and sprint retrospectives to ensure transparent delivery and cross-team alignment.

Tools & Technologies: Java, Kotlin, Spring Boot, Spring Cloud, Redis, PostgreSQL, Angular, GraphQL (DGS), REST, gRPC, Docker, Azure DevOps, Kubernetes, Karate, JMeter

Company: Adobe, India

Mar 2019 – Jul 2021

Java Full Stack Developer

- Designed and developed responsive web applications using React.js, implementing reusable components, hooks, and state management with Redux.
- Developed and maintained robust backend services using Spring Boot microservices with secure REST APIs consumed by React and mobile clients.

- Collaborated with UX designers to implement pixel-perfect UI/UX using Material UI, CSS Modules, and modern front-end best practices.
- Integrated backend services with OAuth2 / OpenID Connect authentication and authorization flows.
- Enhanced code quality and stability with unit testing (Jest, Enzyme) for React and JUnit + Mockito for backend services.
- Leveraged AWS cloud services (EC2, S3) for hosting assets and backend integrations supported by CI/CD pipelines.
- Conducted cross-browser compatibility testing, implemented performance optimization techniques (lazy loading, code splitting).
- Participated in Agile development cycles with story refinement, sprint demos, and post-release retrospectives for continuous improvement.

Tools & Technologies: Java, Spring Boot, React.js, Redux, REST, AWS (EC2, S3), PostgreSQL, Material UI, Jest, Enzyme, Git, Jira

EDUCATION:

Master's Degree: Master's in Computer Science

University & Location: University of Houston—Clear Lake, TX

Start Date: August 2021

Completion Date: May 2023
