Summary

Skilled in Python, Java, SQL, and JavaScript with a strong foundation in computer science. Experienced in developing software solutions and managing databases. Proven ability to design and implement secure and efficient systems. Eager to contribute to a team by leveraging technical skills and innovative solutions.

Experience

- Developed a supervised learning model in Python to detect credit card fraud patterns using a real-world dataset, enhancing fraud detection accuracy by 99.95%.
- Designed and implemented a database schema and backend in Java & SQL for a bookstore management system, improving inventory and customer management efficiency.
- Created SDLC-aligned software assurance guidelines, emphasizing security and quality assurance, resulting in a reduction in software vulnerabilities.

Machinist at Elliott Equipment (From March 2024 - August 2025): CNC Programming, Plasma Cutting, Blueprint Reading, Machine Setup, Material Handling.

Machine Operator at Lozier Corporation (From Sep 2017 - March 2024): Responsible for operating and maintaining machinery in a safe, efficient, and accurate manner.

Education

Colorado Technical University – Colorado Springs, CO
Bachelor of Science in Computer Science (Software Engineer)

- Relevant Coursework: Data Structures, Software Development Life Cycle (SDLC), Networking Fundamentals, Agile Development, Database Management, Big Data

Analytics.

- Honors: Dean's List (multiple terms).

Technical Skills

- **Tools & Systems:** Git/GitHub, Microsoft Office Suite, Unix/Linux (shell scripting), Windows OS.
- **Programming & Development:** Java, Python, SQL, JavaScript, NodeJS
- **Web & Backend:** HTML, CSS, Django, REST APIs, XML, JSON.
- **Networking:** TCP/IP, MPLS, BGP, Layer 2/3 protocols (academic exposure).
